Tools Required-Not Supplied

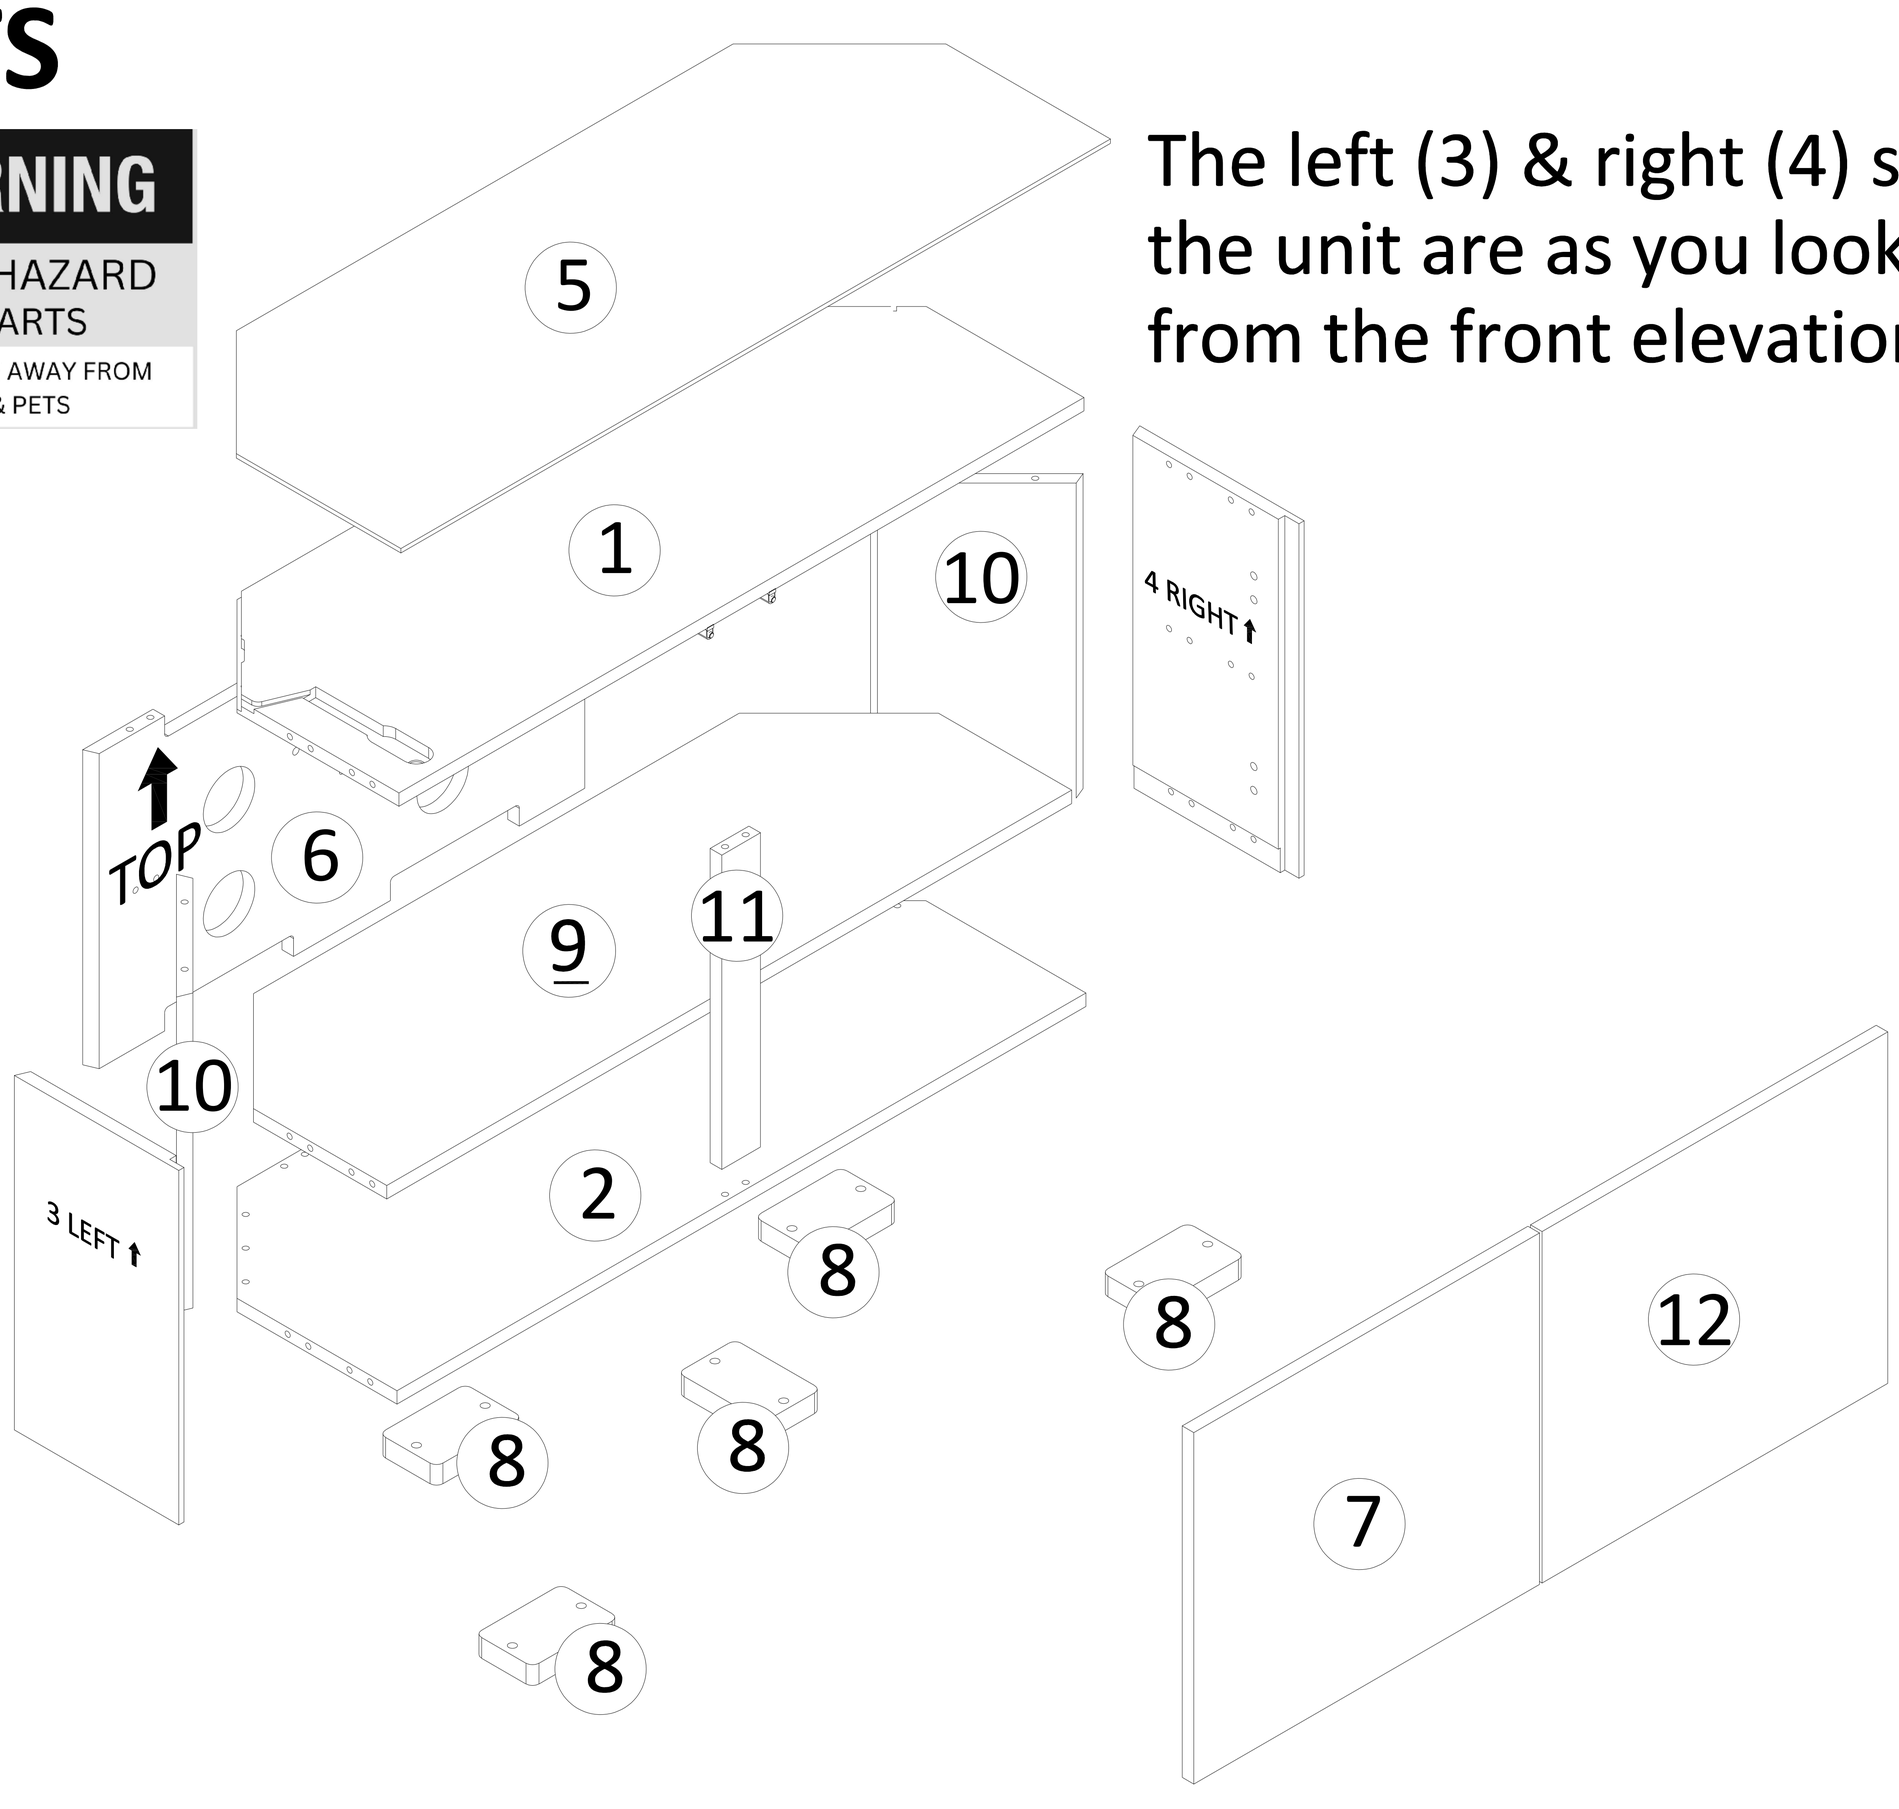
PARTS

⚠ WARNING

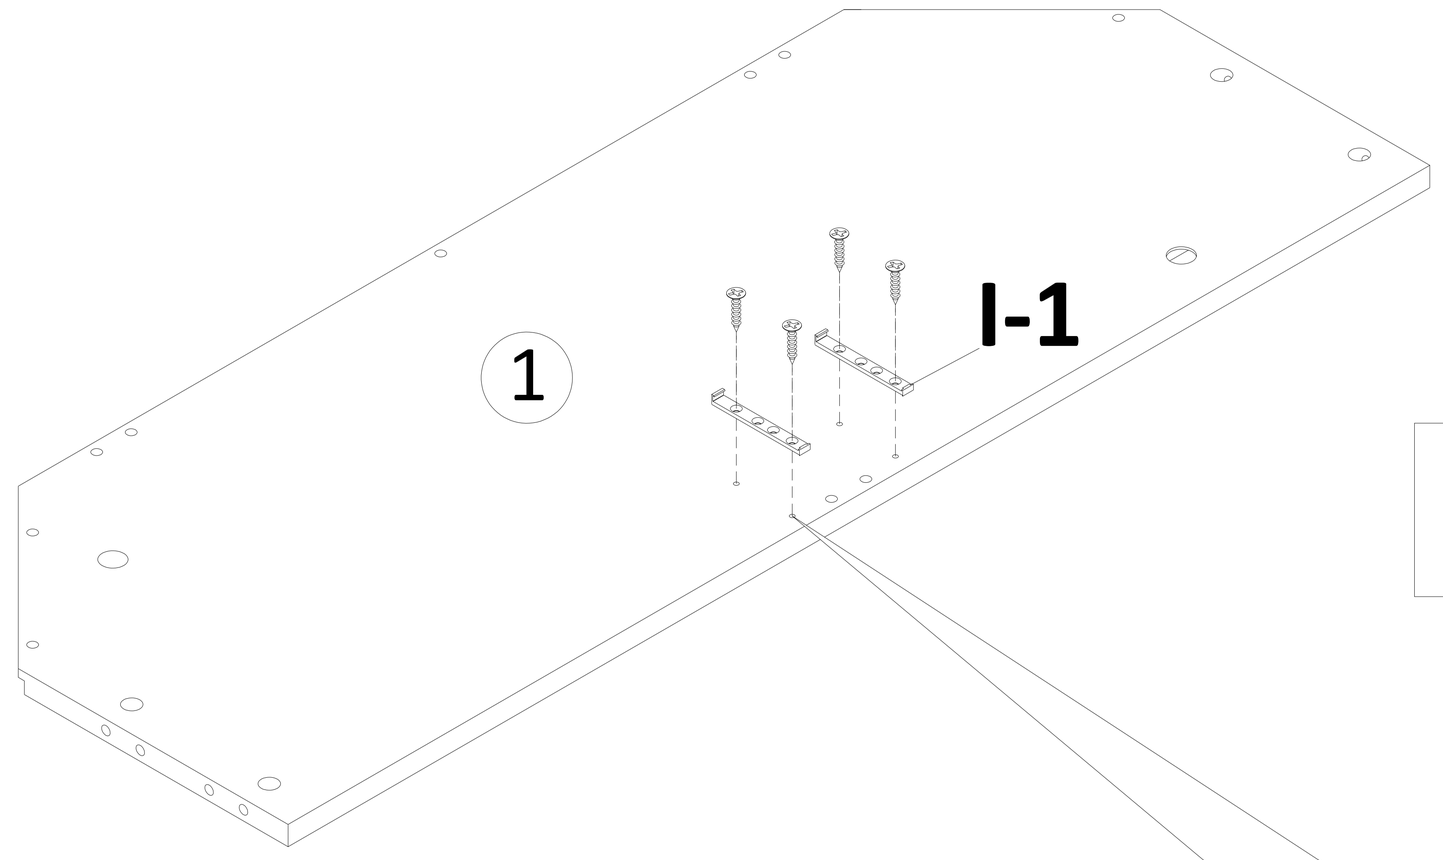
CHOKING HAZARD
SMALL PARTS

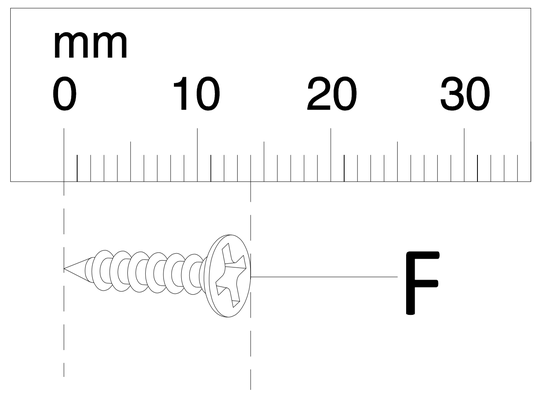
PLEASE ASSEMBLE AWAY FROM CHILDREN & PETS

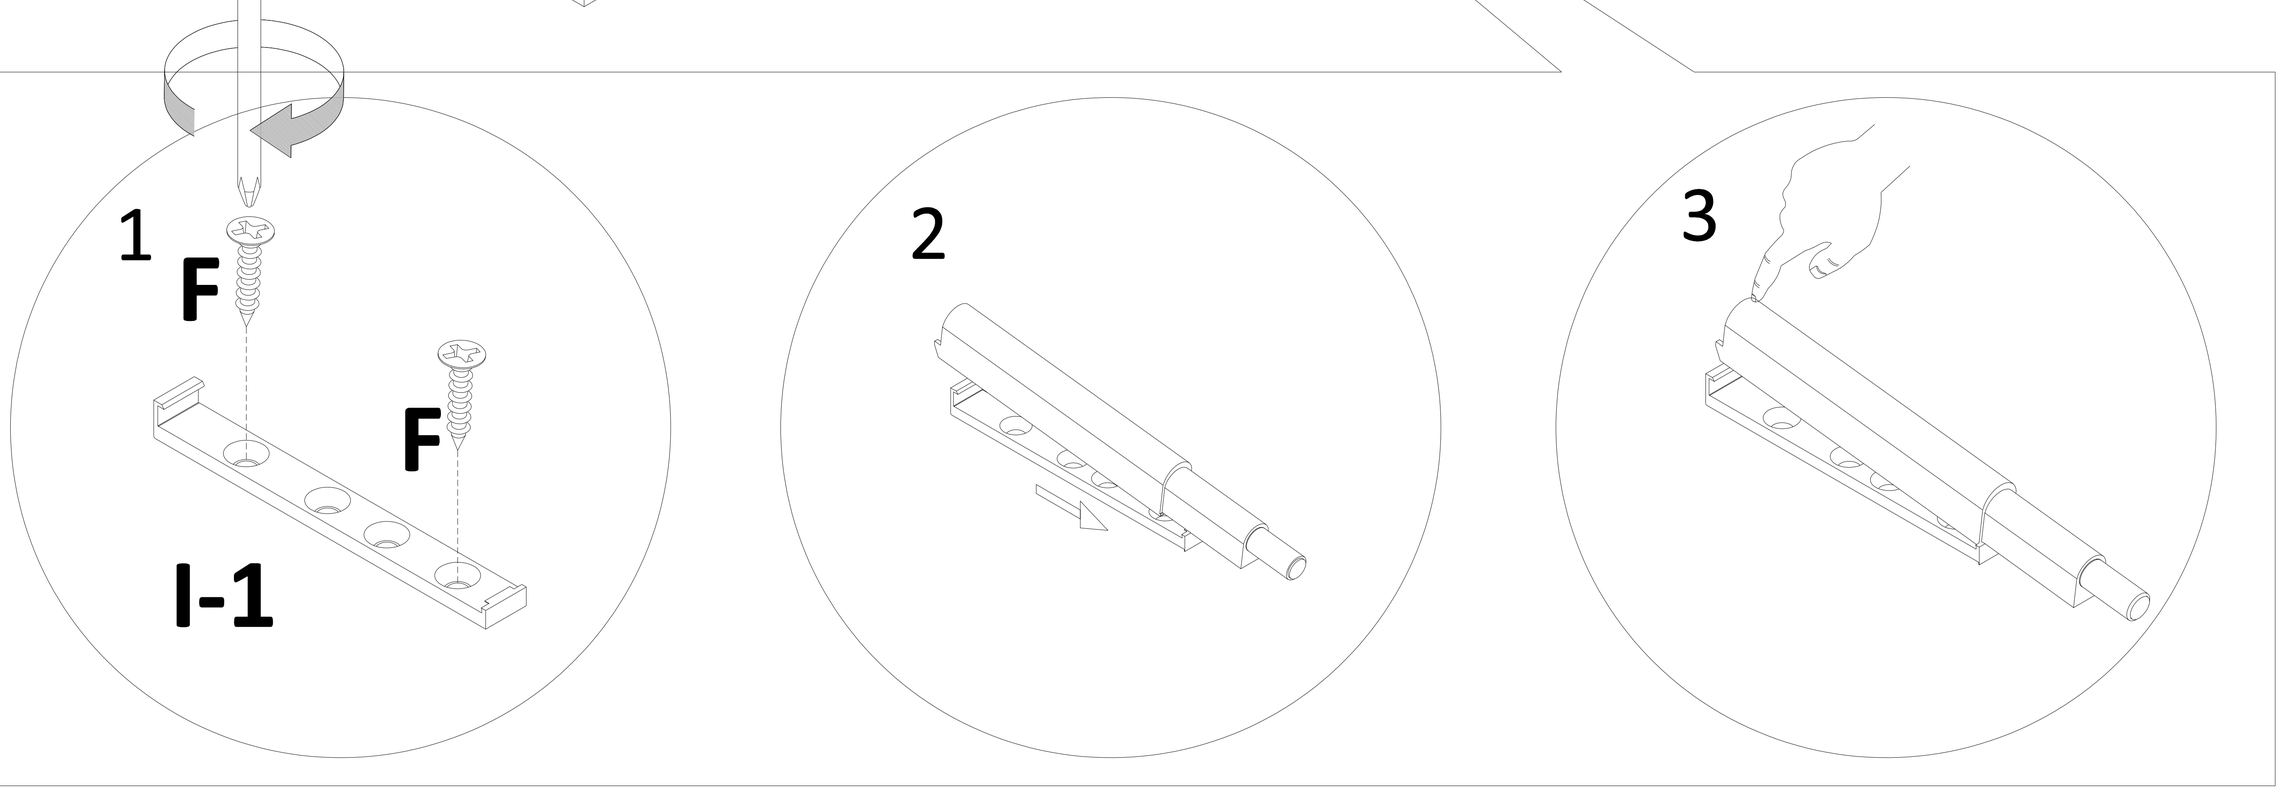
The left (3) & right (4) sides of the unit are as you look at it from the front elevation.



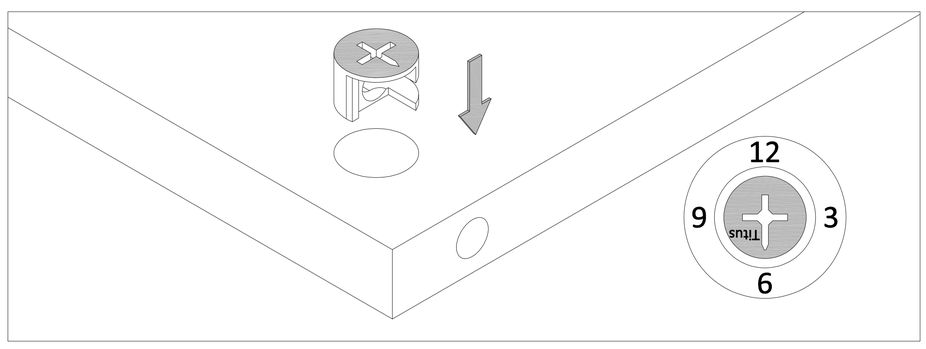
1



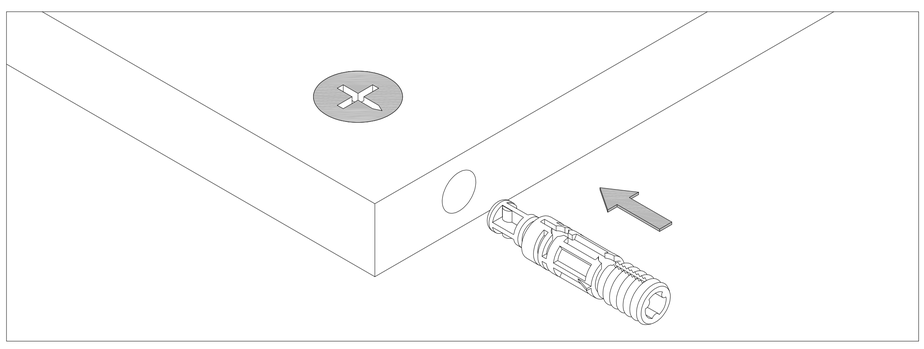




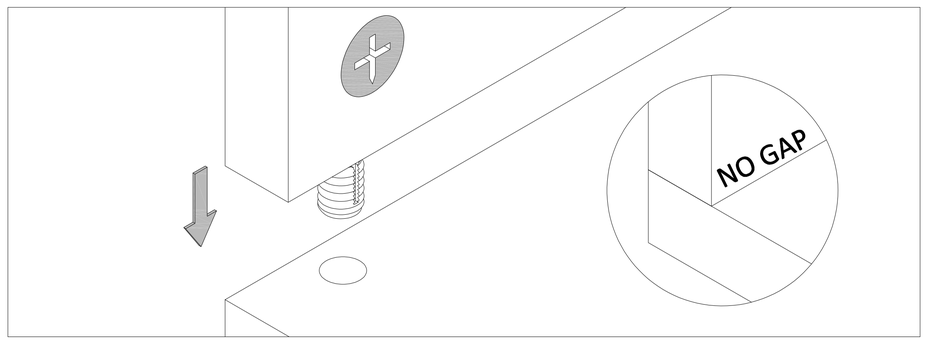
2 Guide on using quick cam assembly



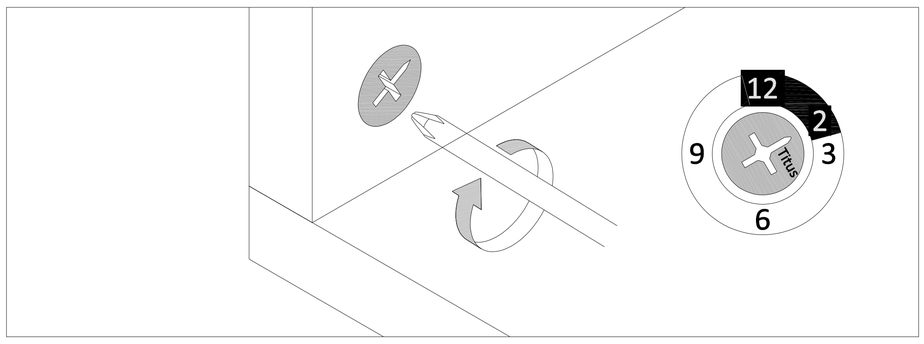
1. Press cam into pre-drilled hole with the arrow pointing toward the side hole. (see 6 O'clock.)



2 . Push the bolt all the way into the side hole.



3 . With all cam & bolts installed align and push the panels together - NO GAPS
(MAKE SURE PANELS HAVE NO GAPS)



4 . Turn cam clockwise to tighten. Secure connection by turning arrow on the cam to 2 O'clock to smoothly lock panels together.

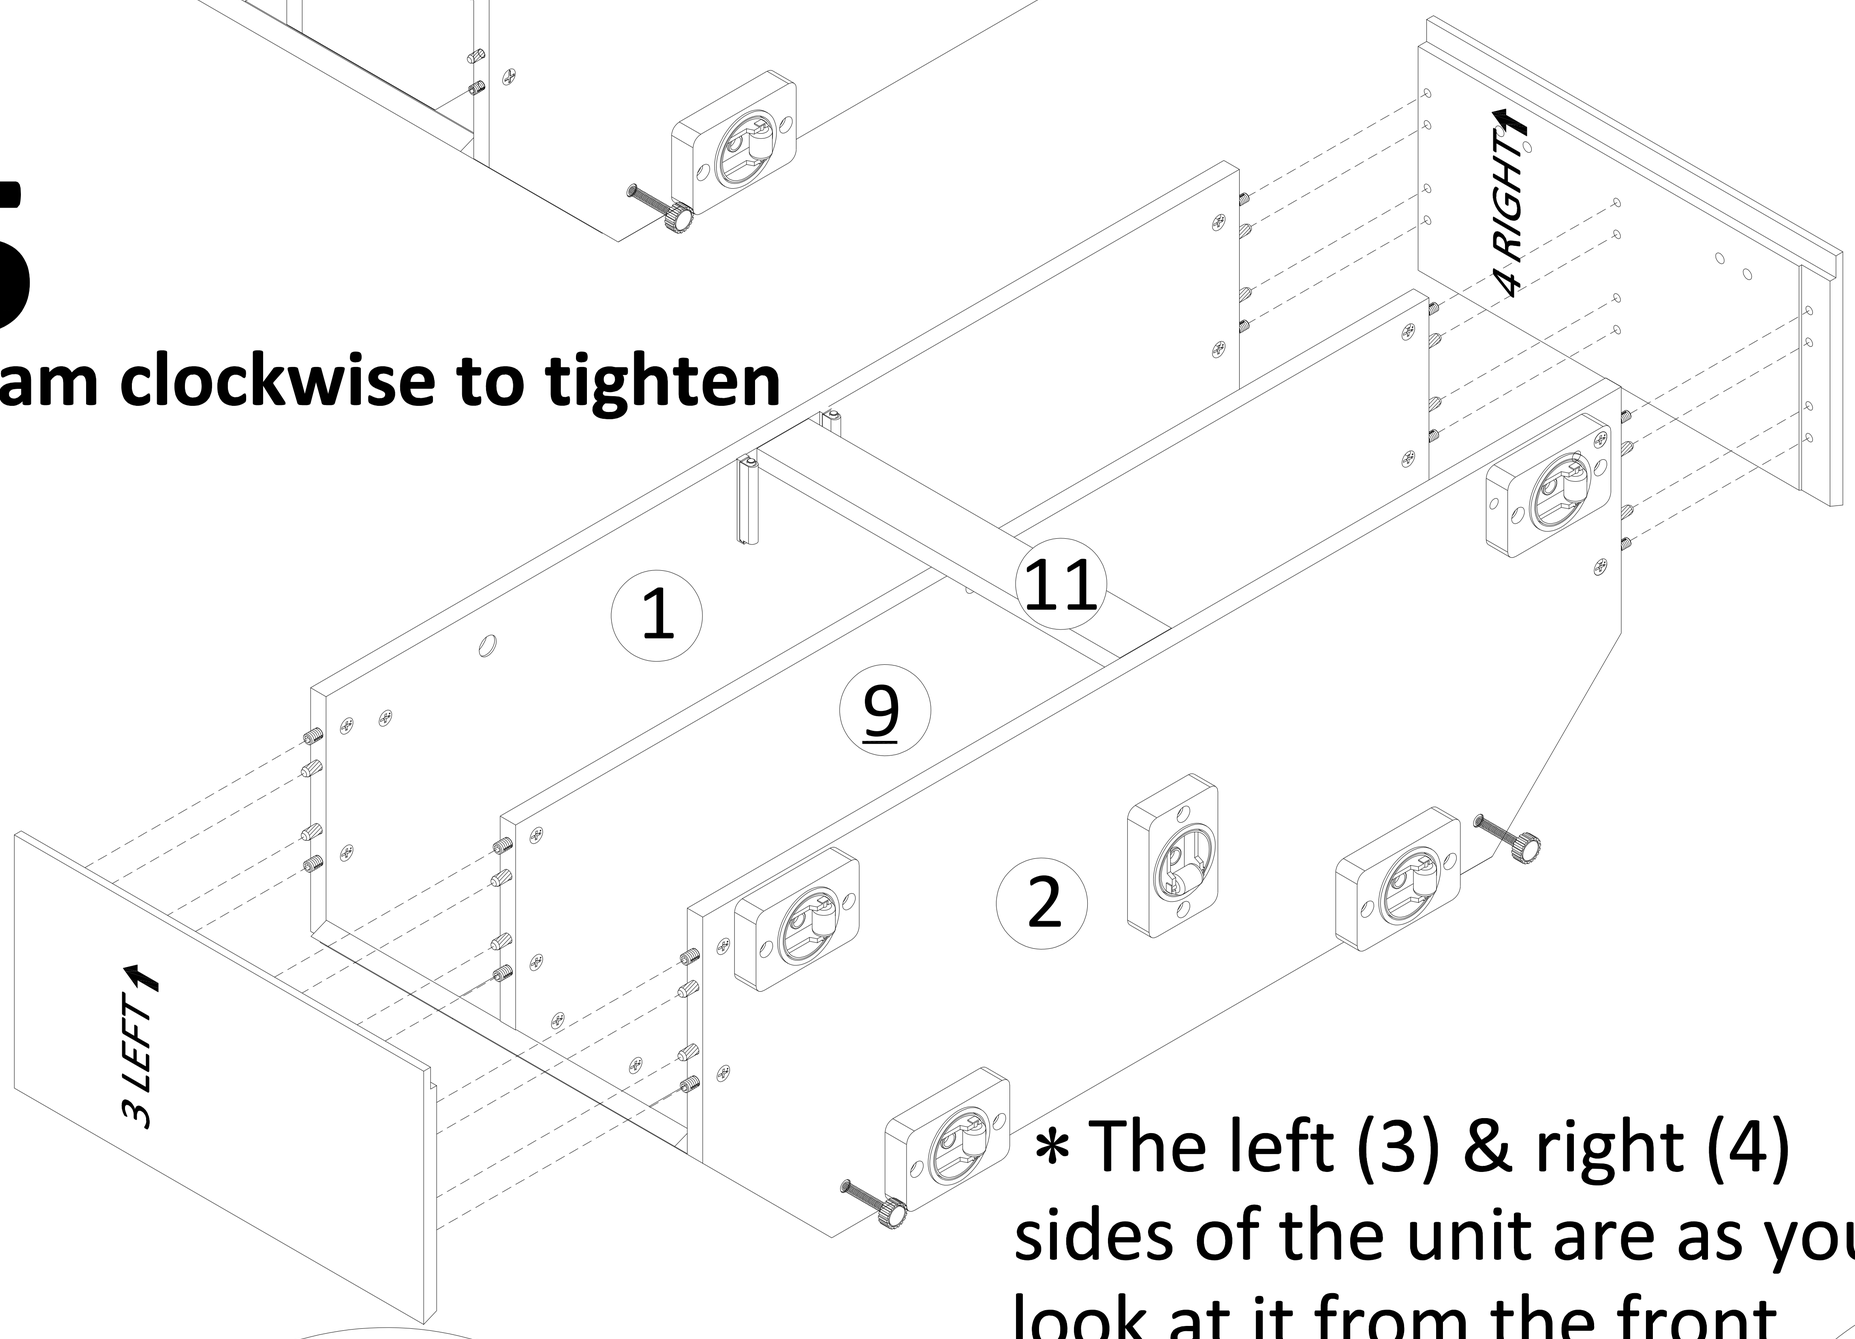
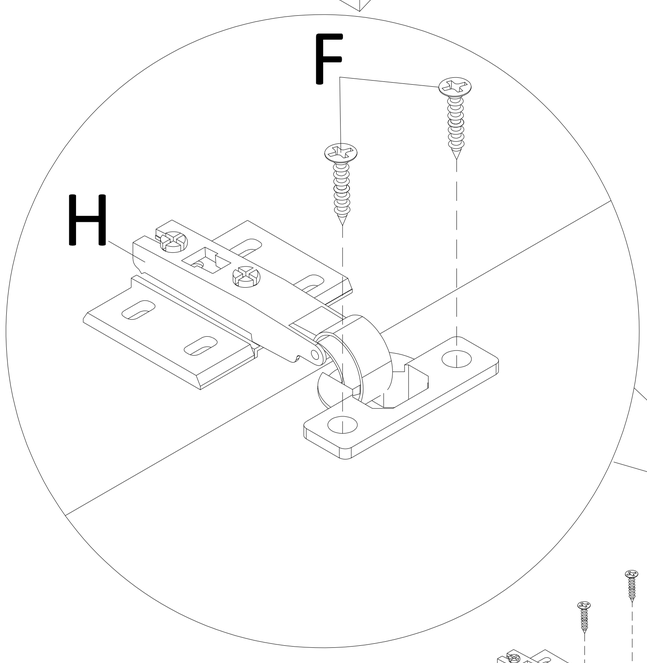
15

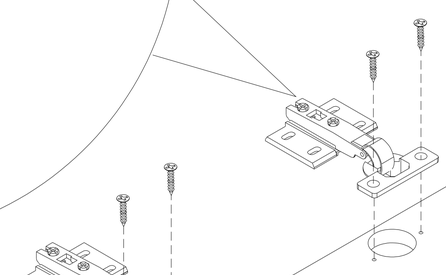
*** Turn cam clockwise to tighten**

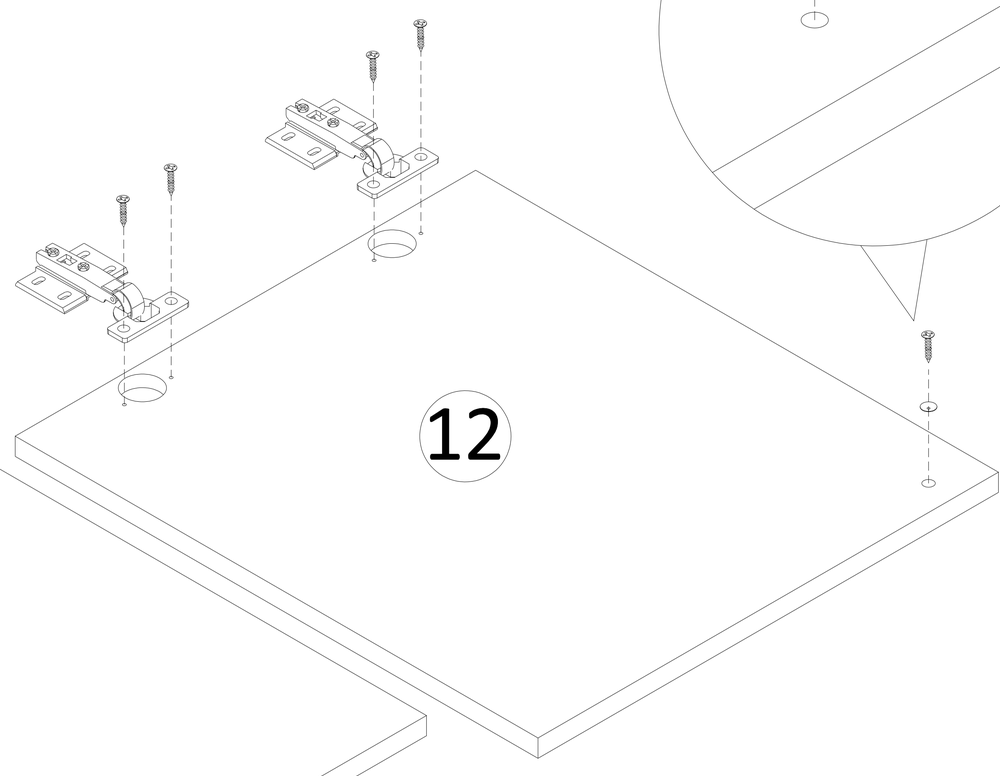


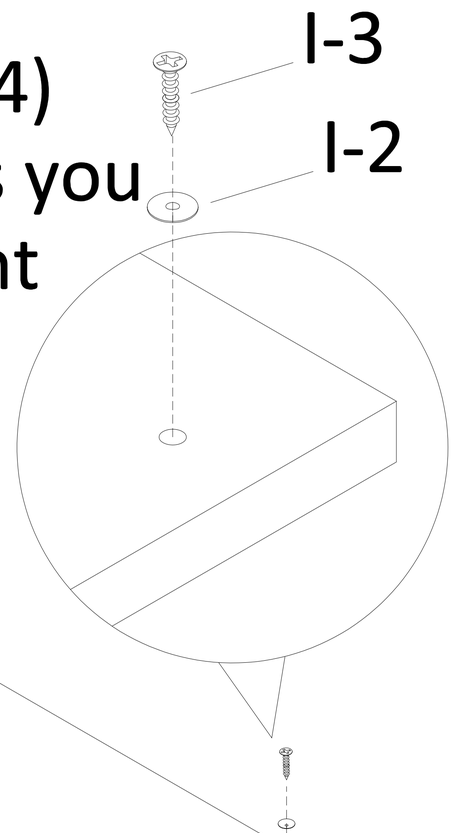
* The left (3) & right (4) sides of the unit are as you look at it from the front elevation.

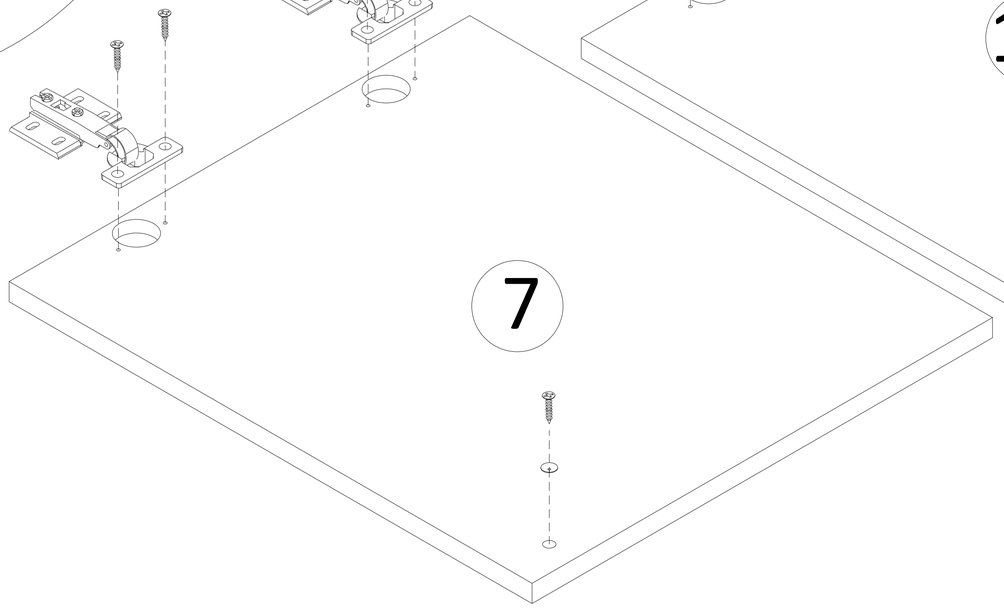
16

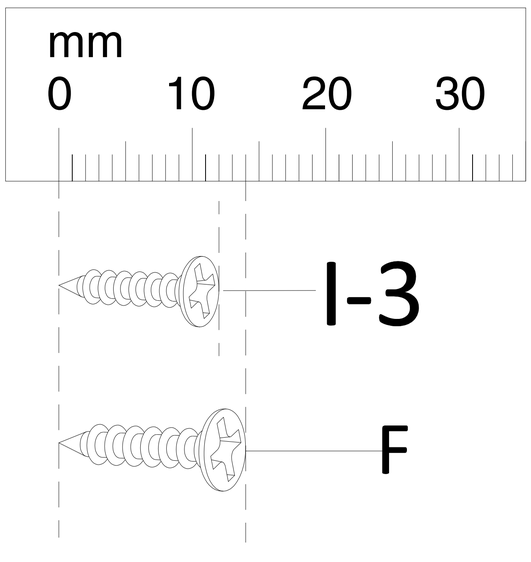




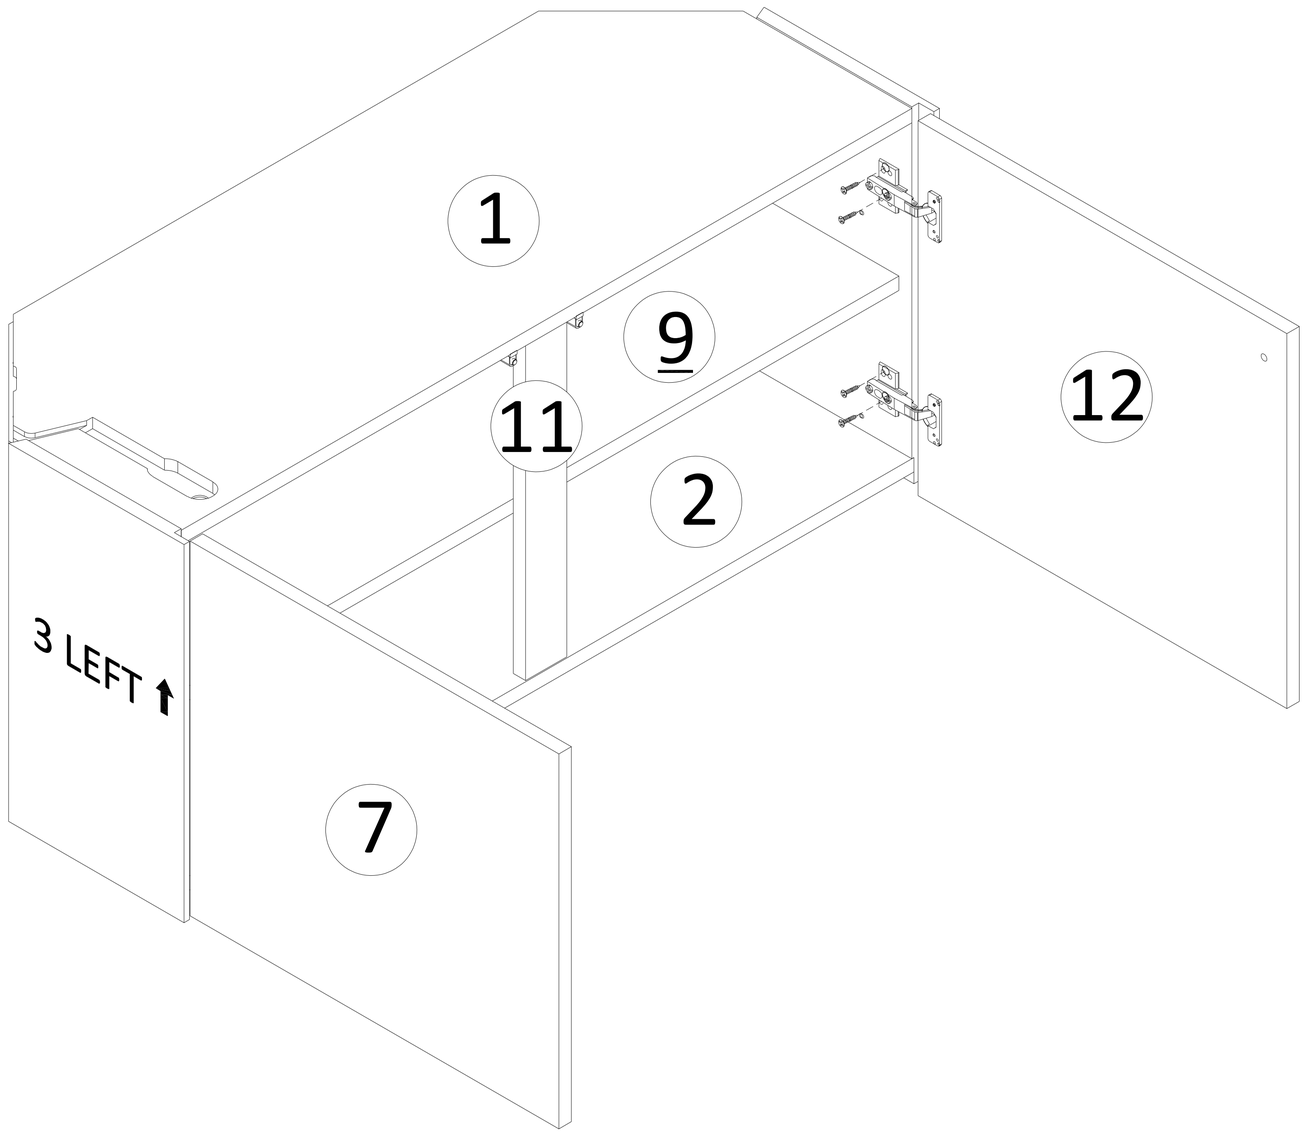


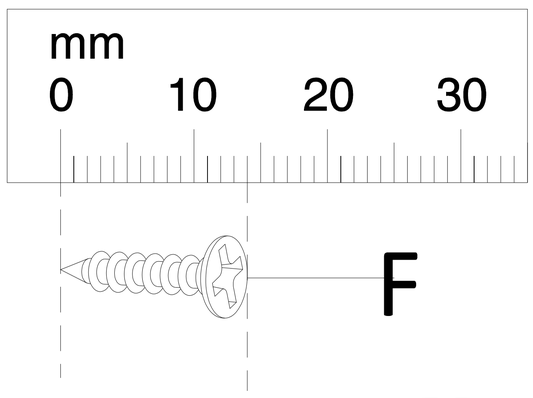


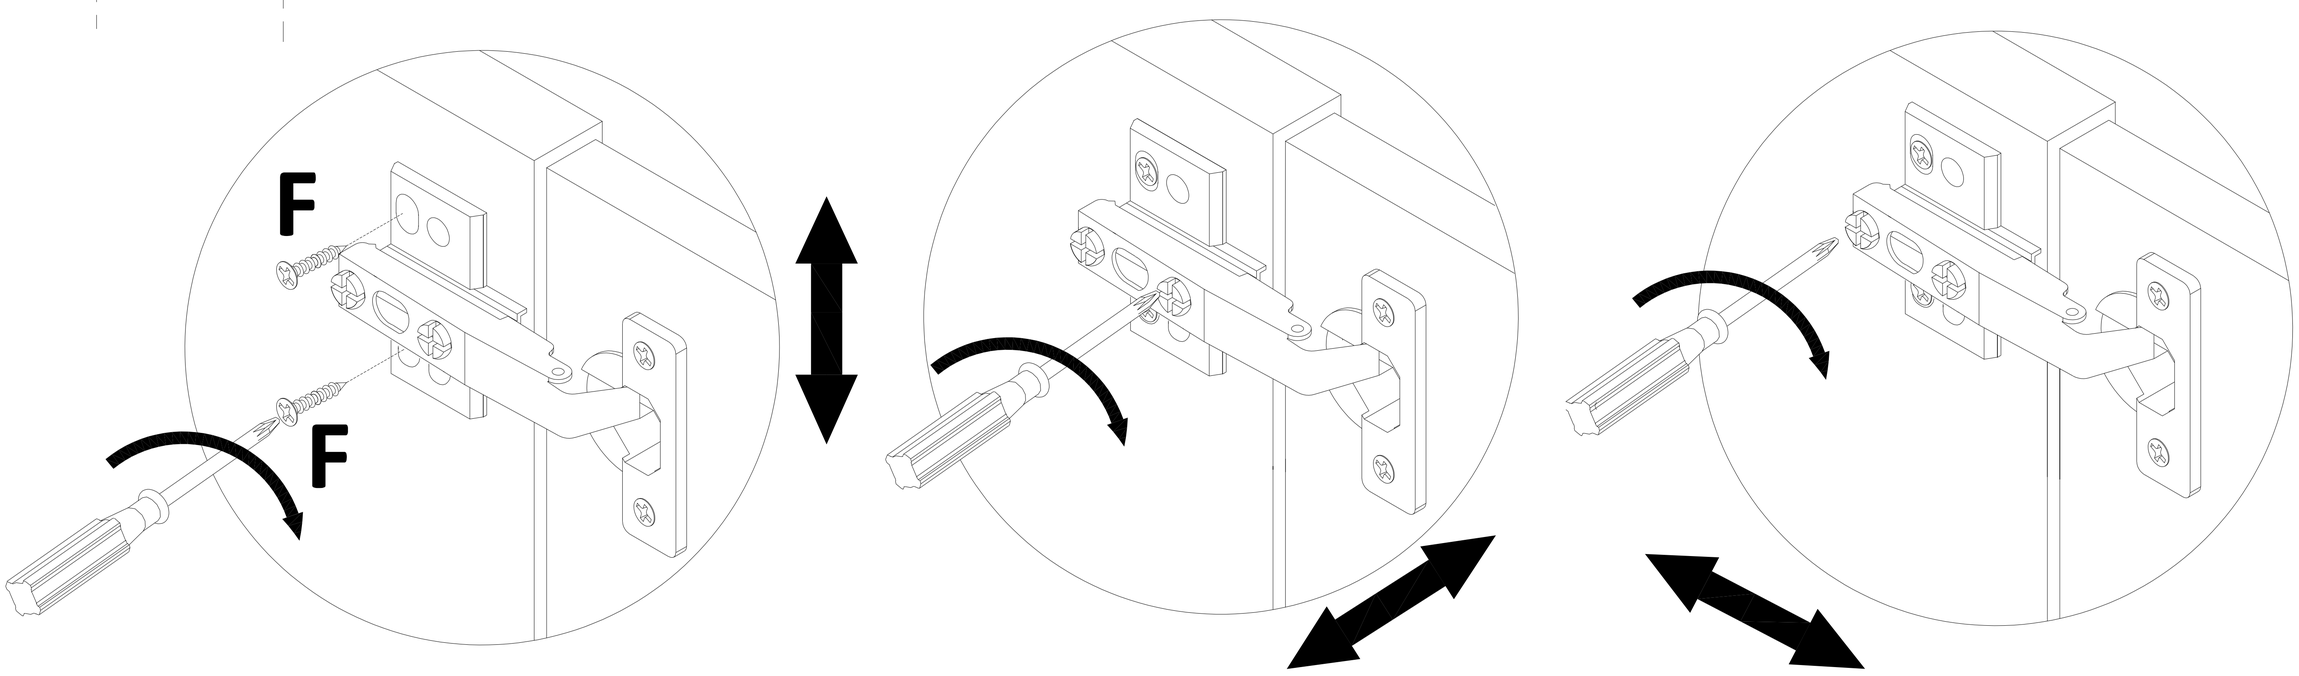




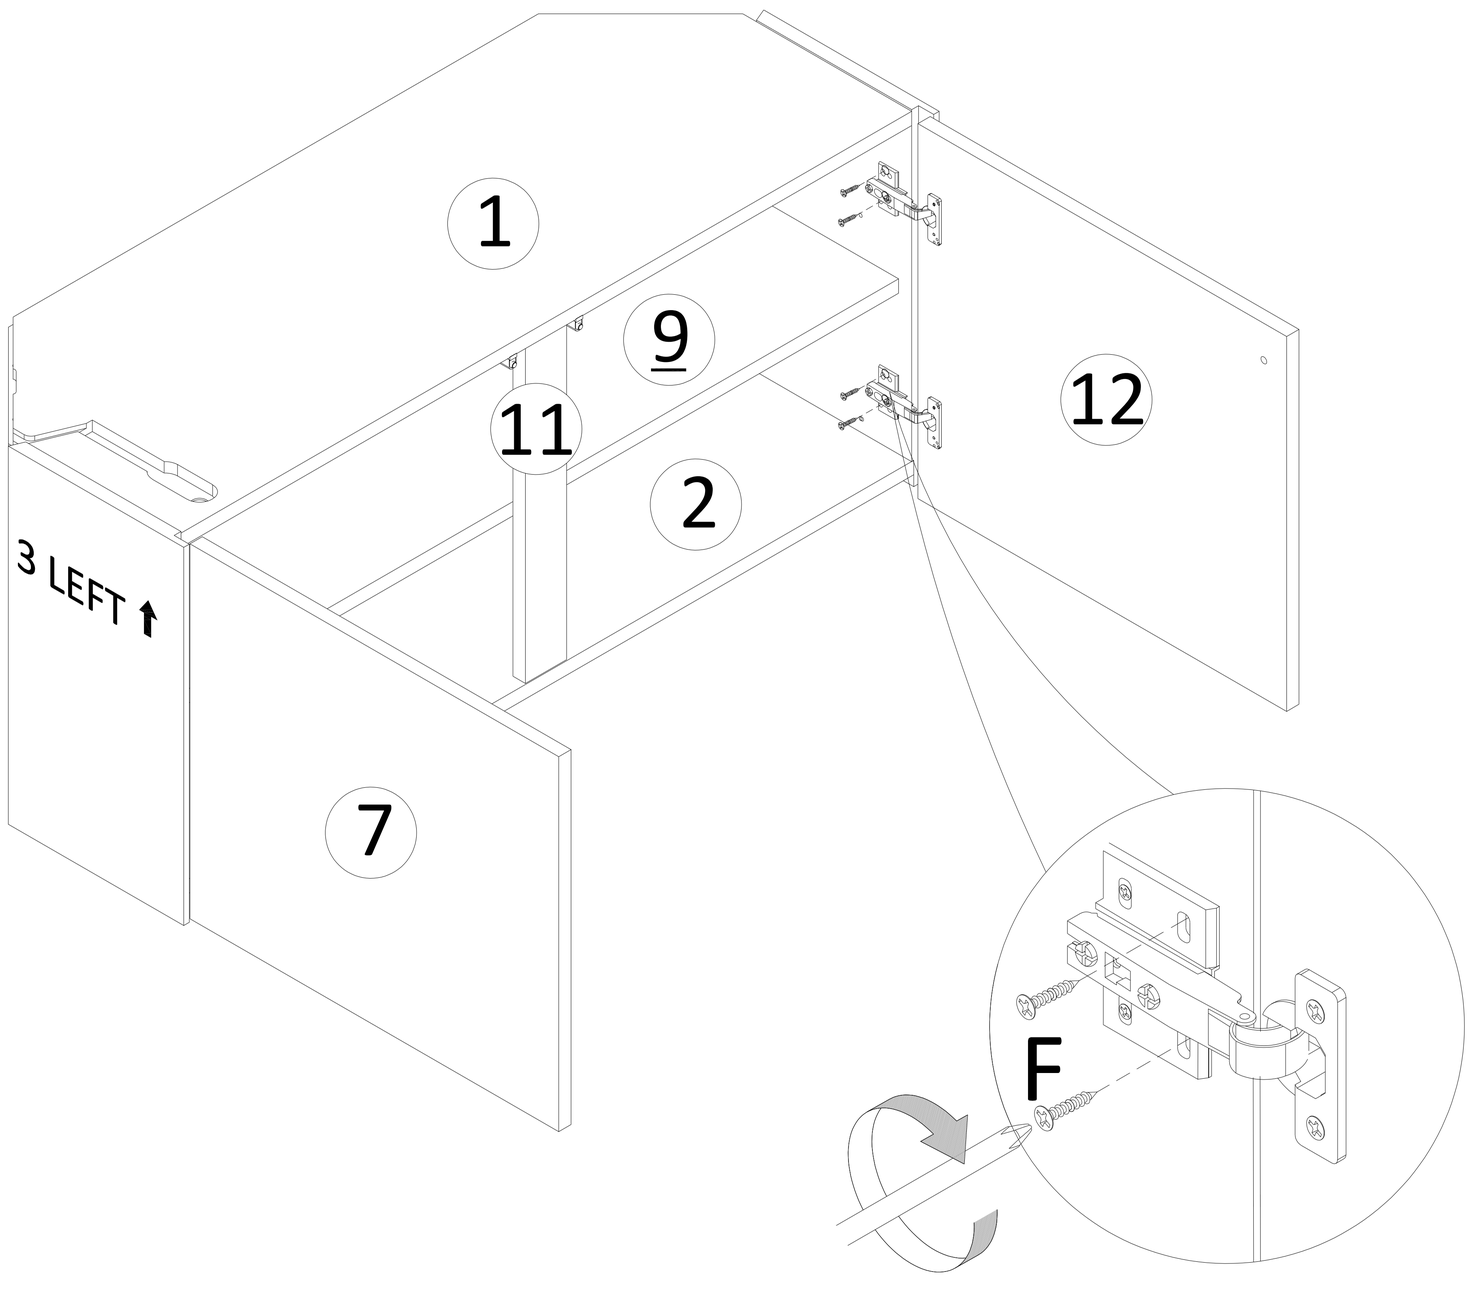
17





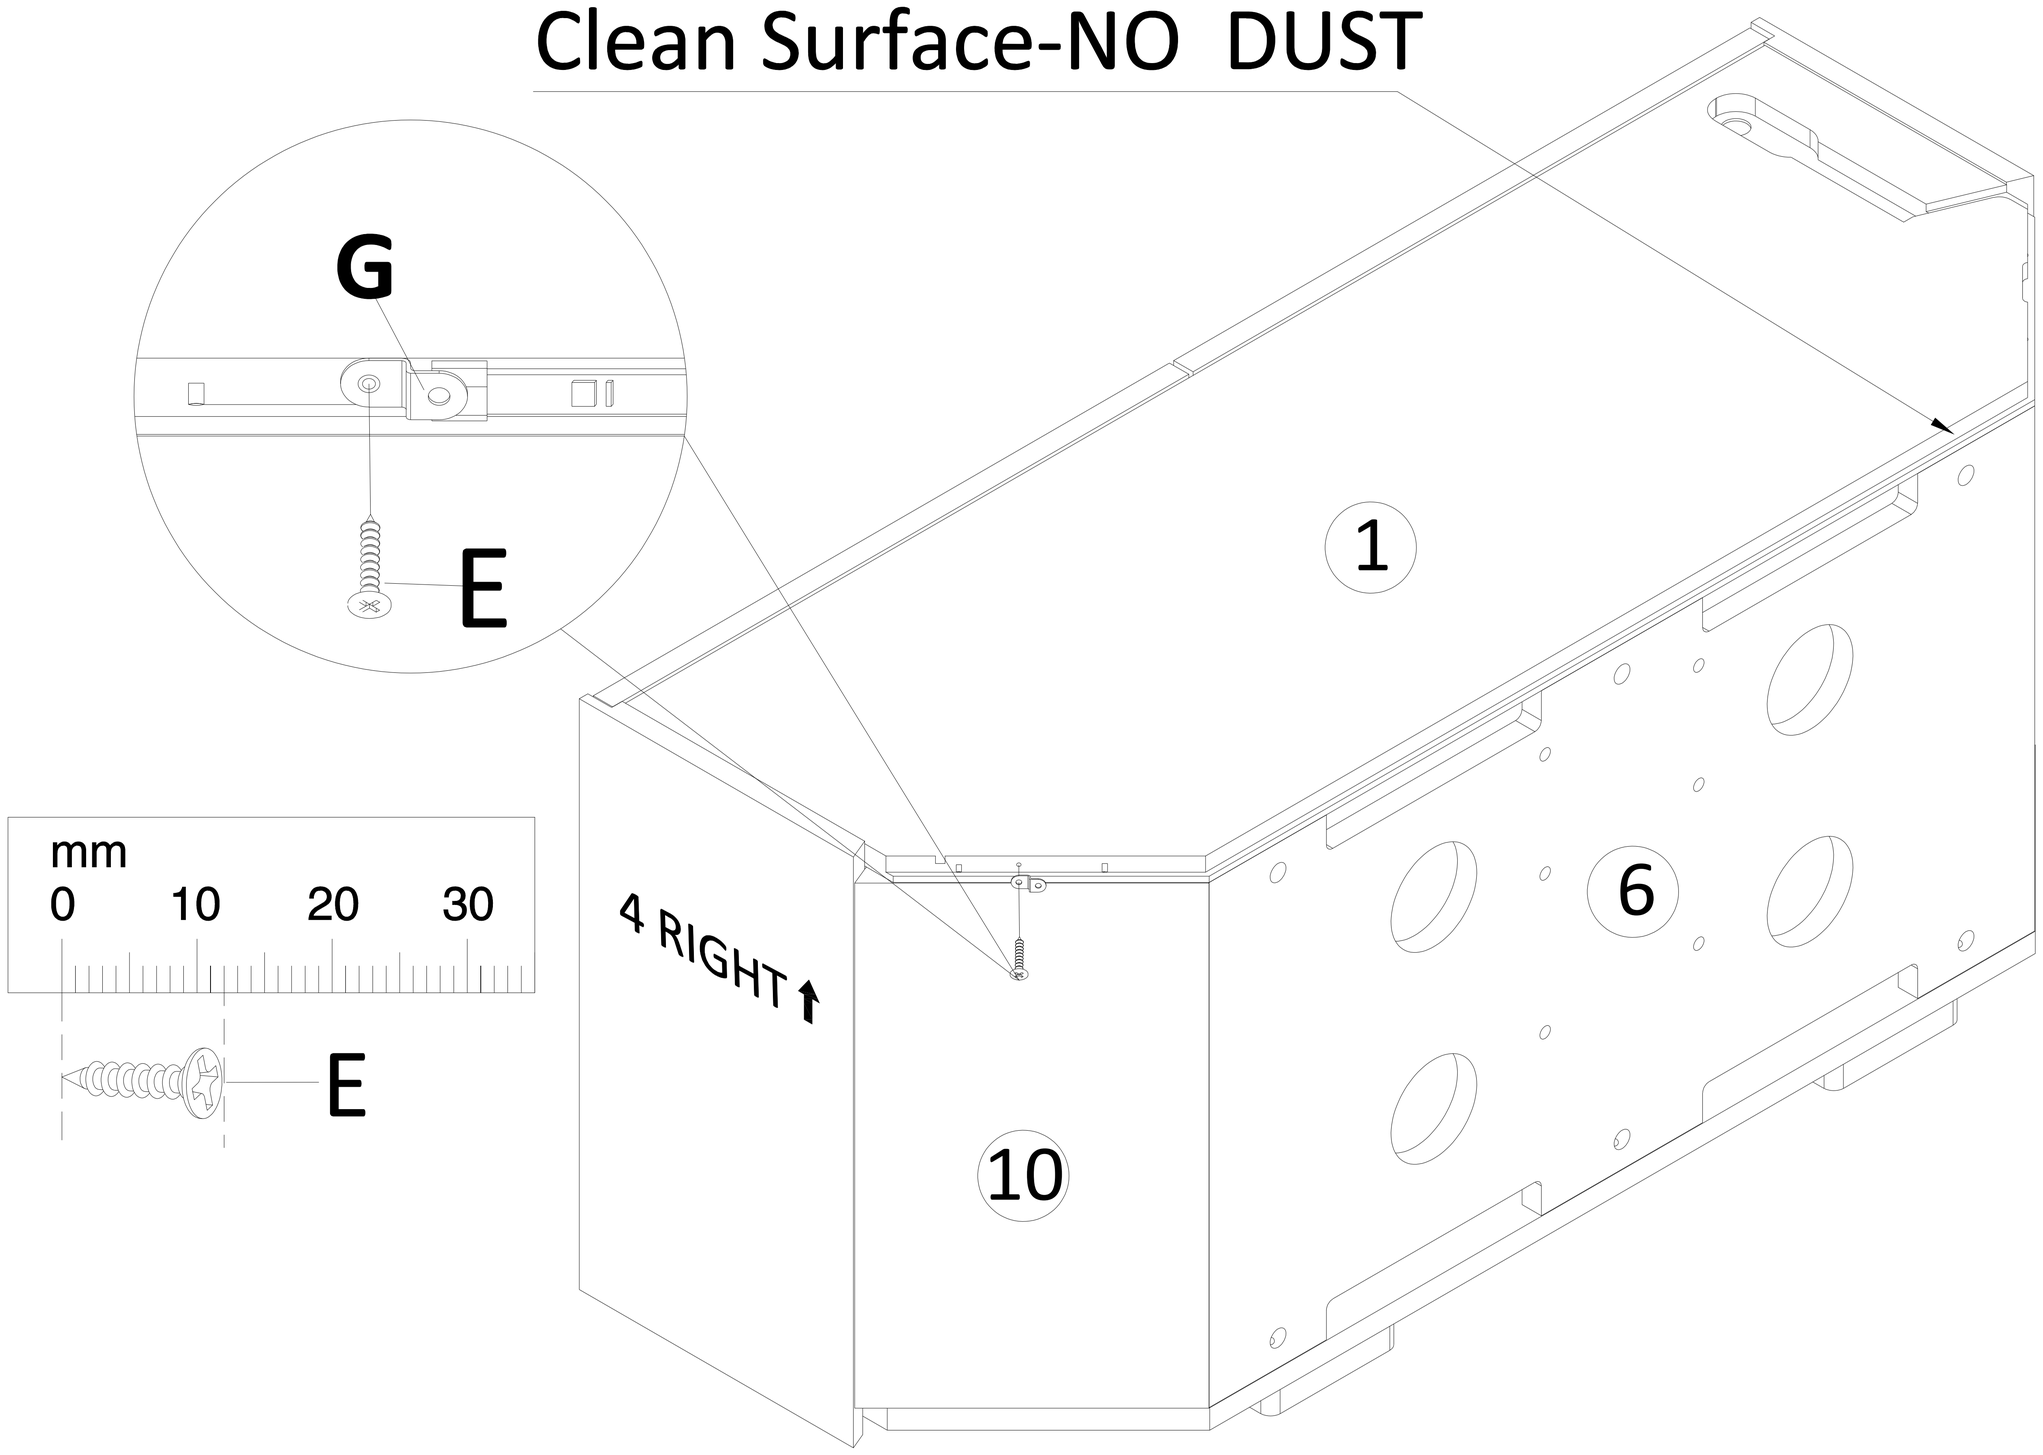


18



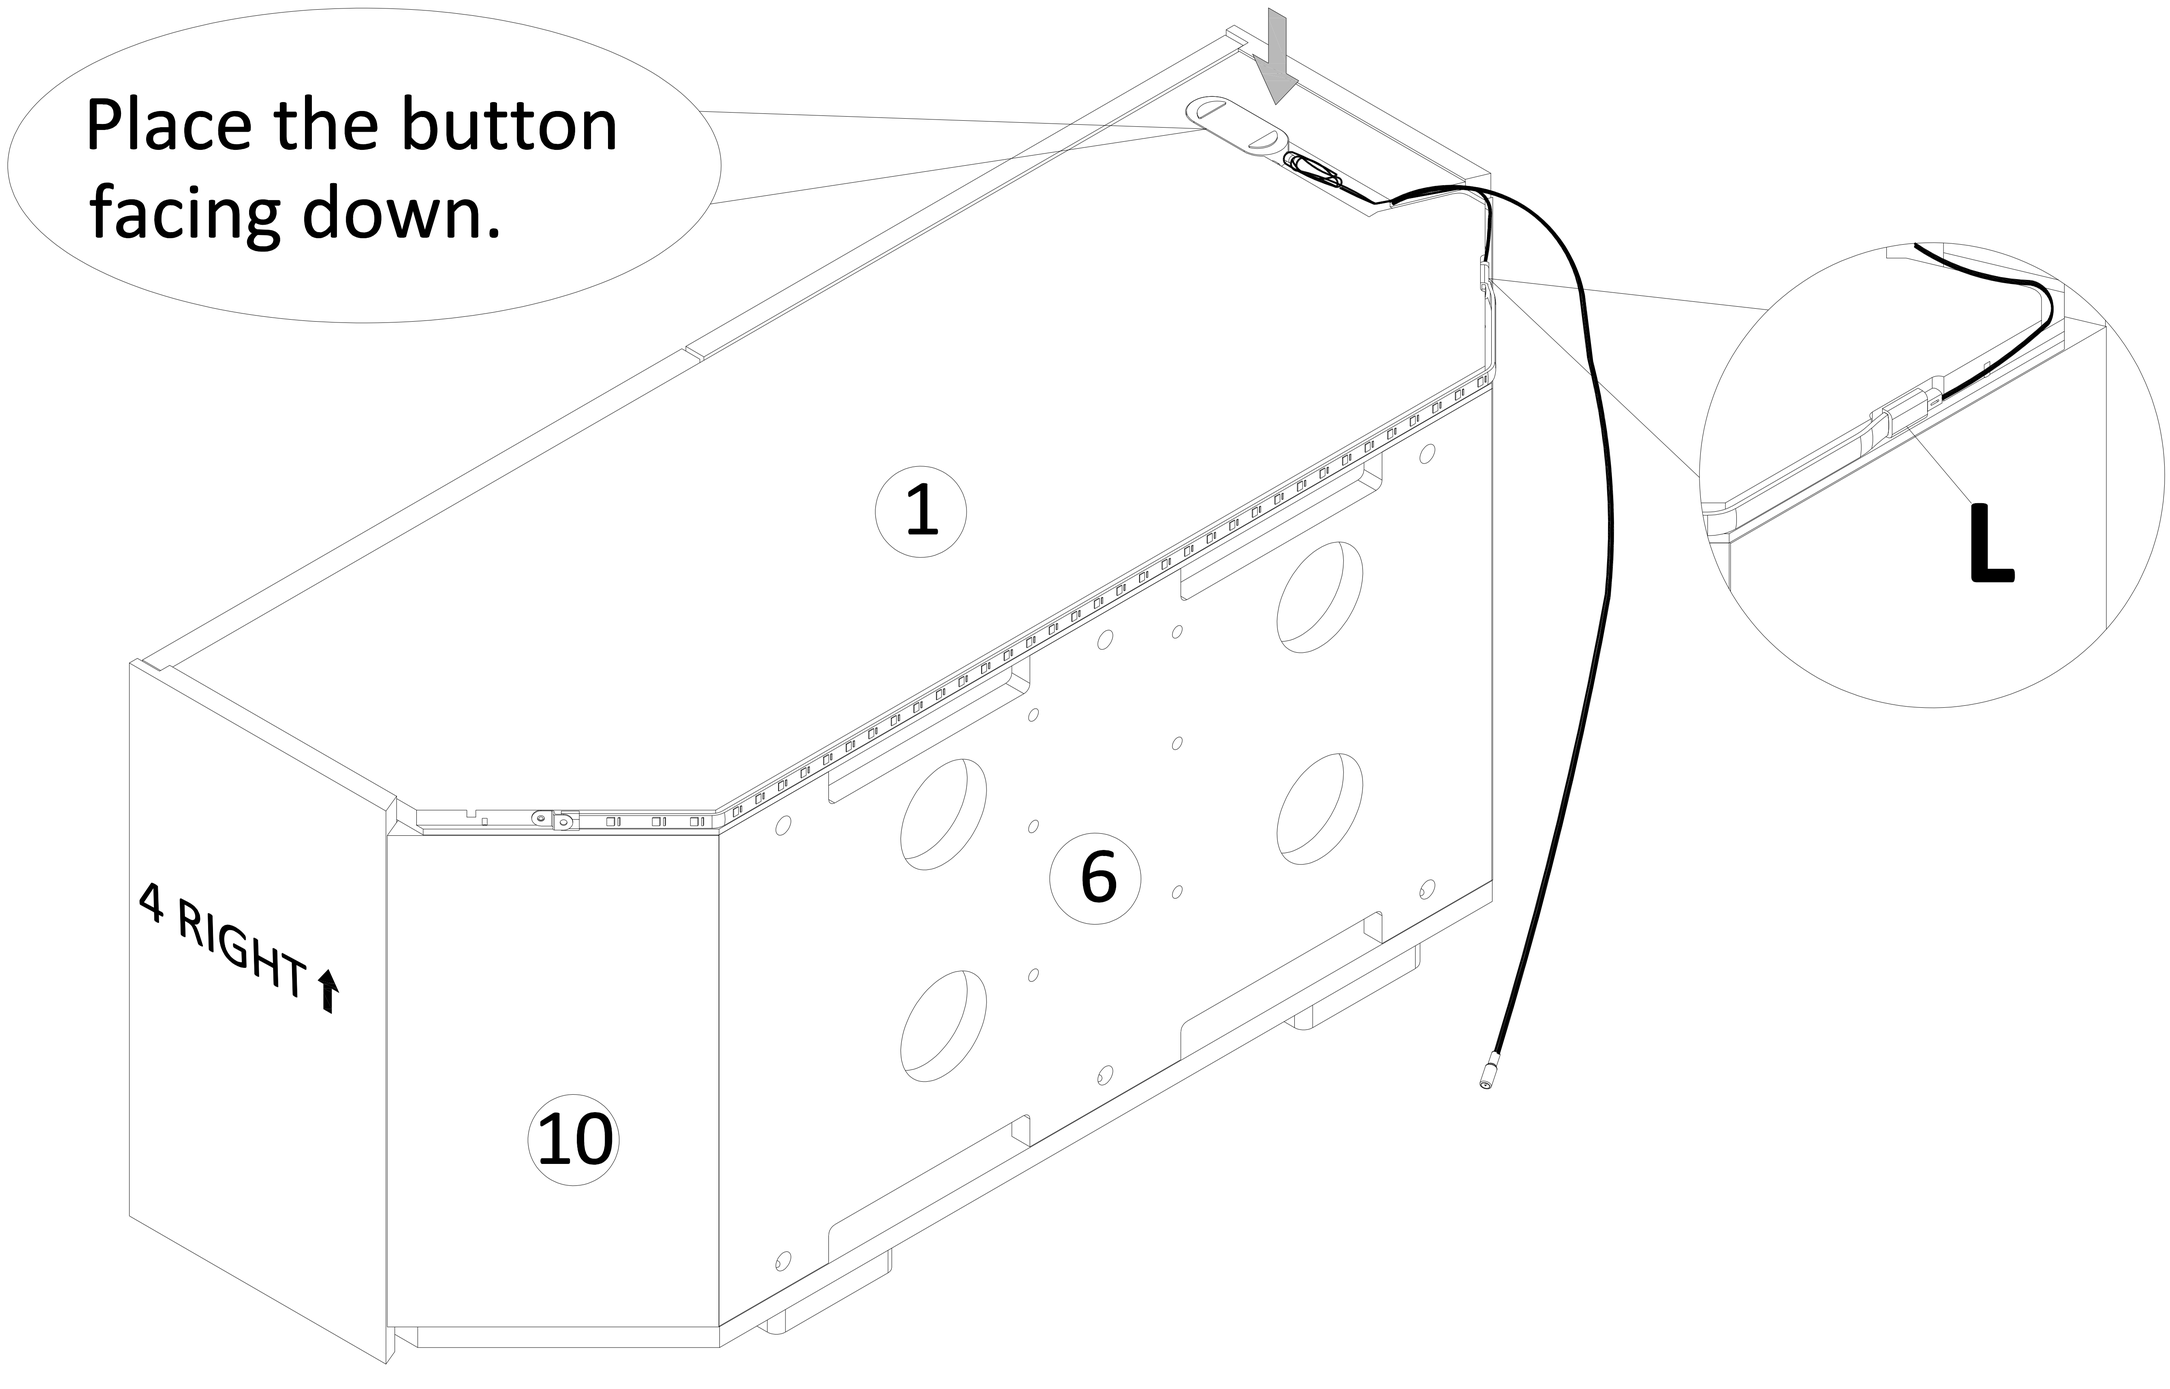
19

PLEASE FOLLOW THE STEPS TO ENSURE NO DAMAGE.
1.Screw in clip 'G’- ensure surface is DUST FREE



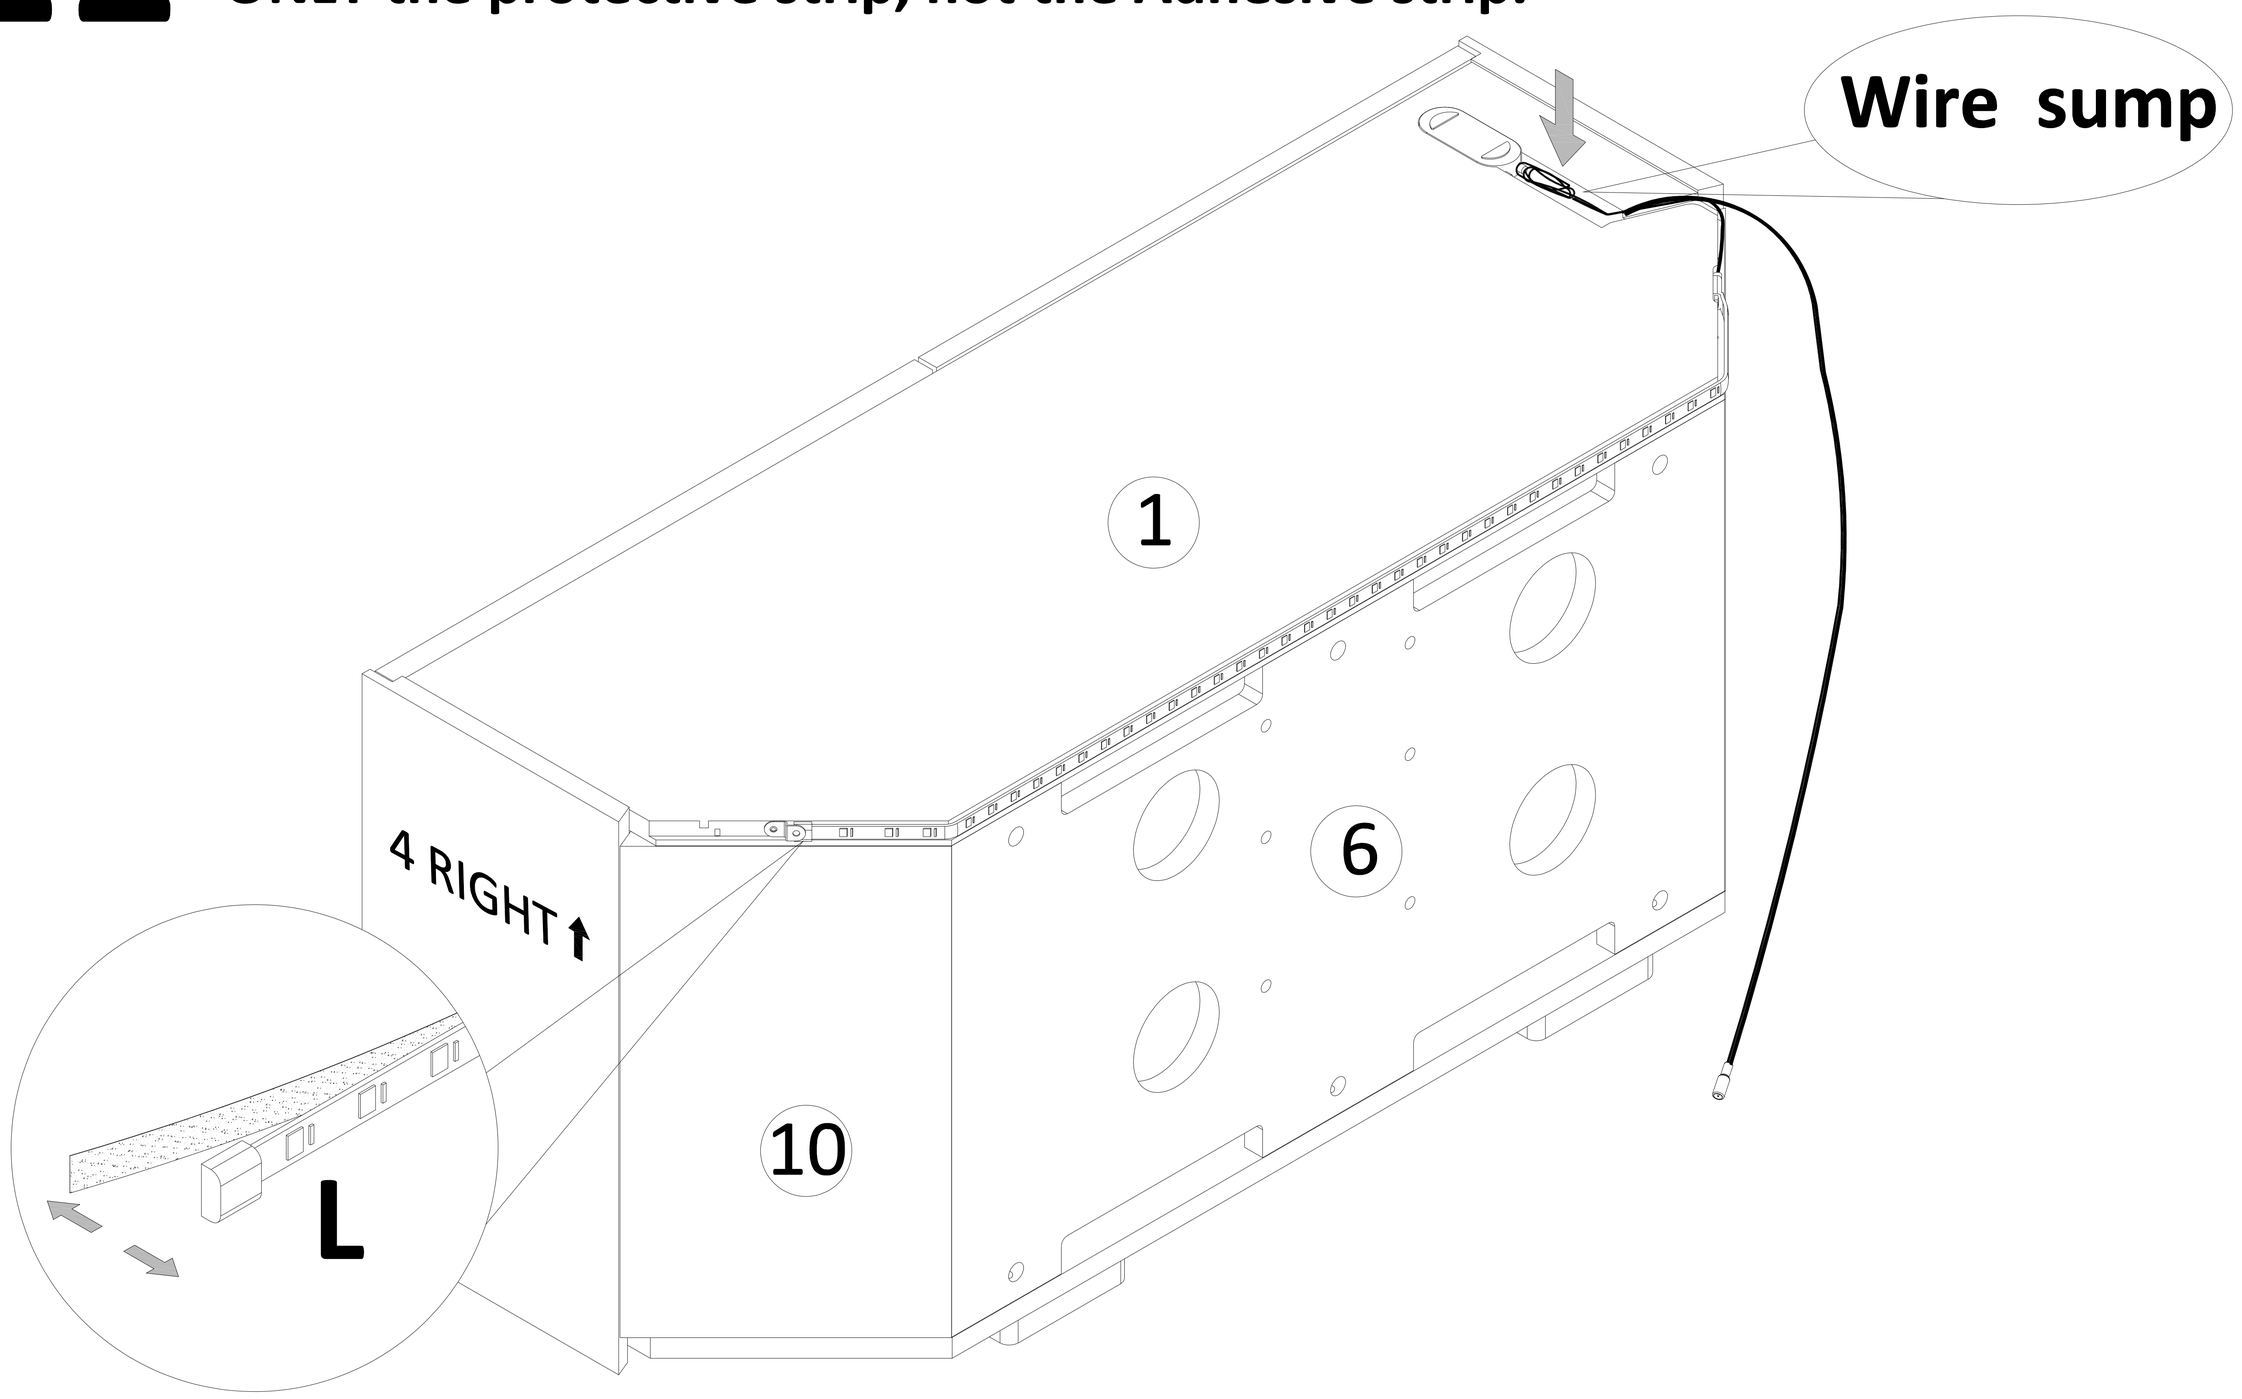
20

2.Do not remove LED strip backing yet. Place LED strip in position under the clip and lay LED strip in place.
3.Loosely run wires in the recess and place the button in position.



21

CAUTION, When peeling off LED adhesive strip, take Extra care to peel ONLY the protective strip, not the Adhesive strip.

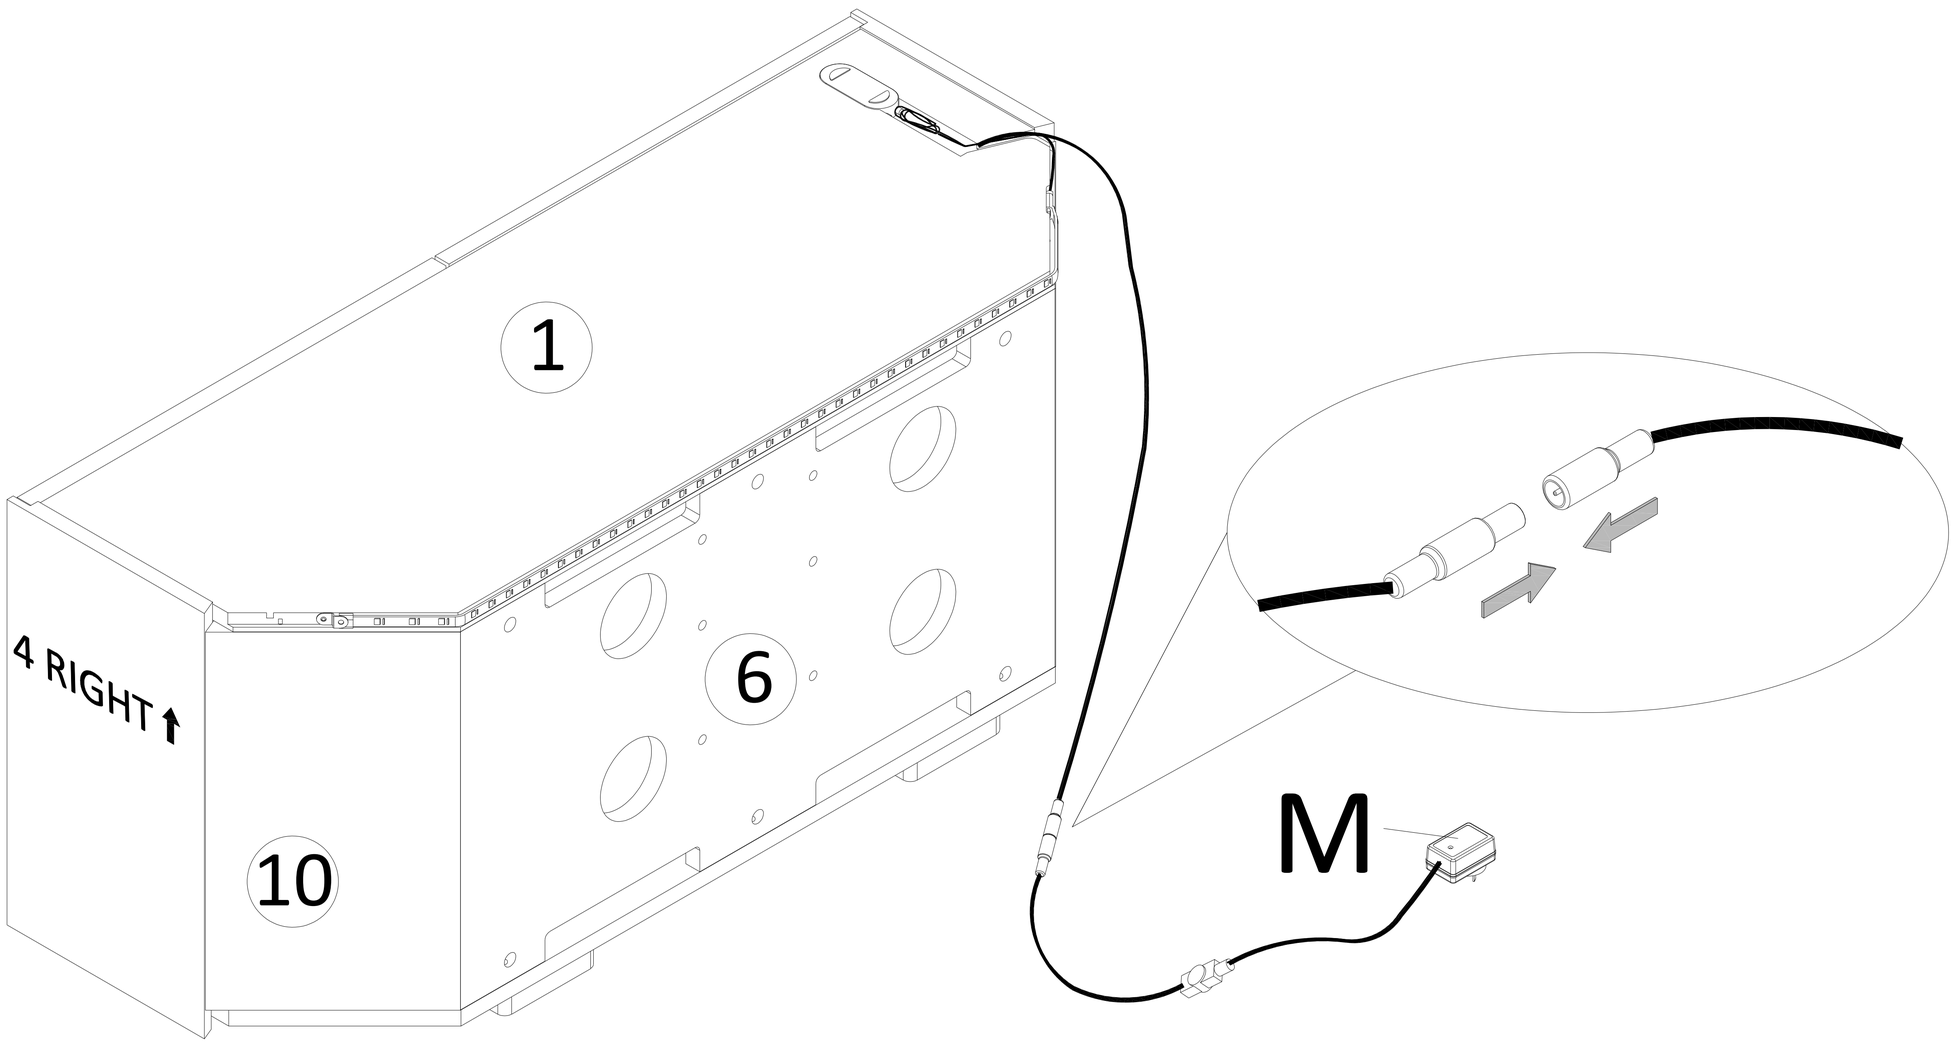


4.Start from the CLIP end, remove the LED strip backing with care and place in position on the edge of the back panel pressing fimly.

5. Gently pull the wires so that the end of the LED strip is straight and sticking in position.

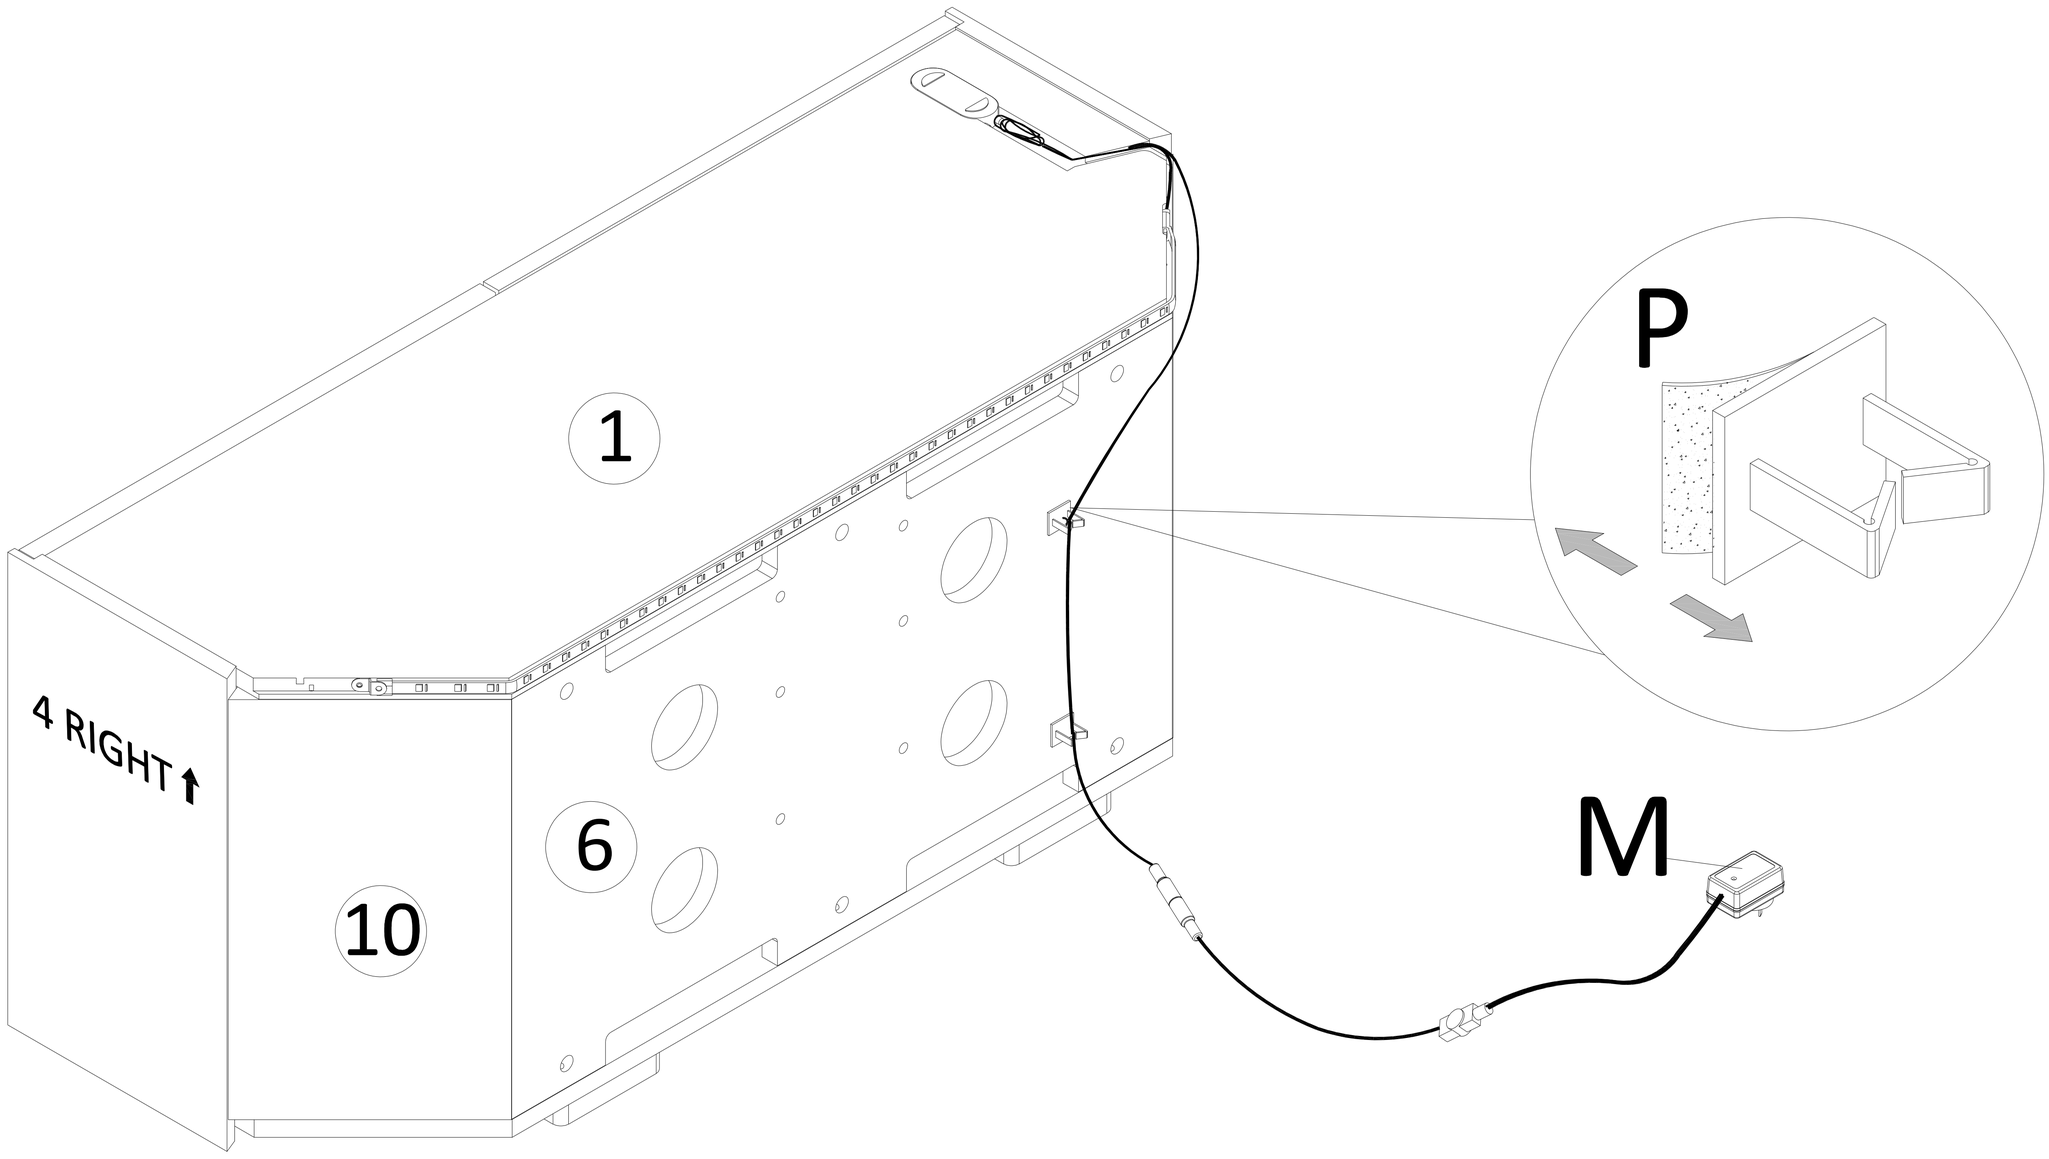
6. Use the space in the wire sump to coil any excess wire for a neat fit.

22

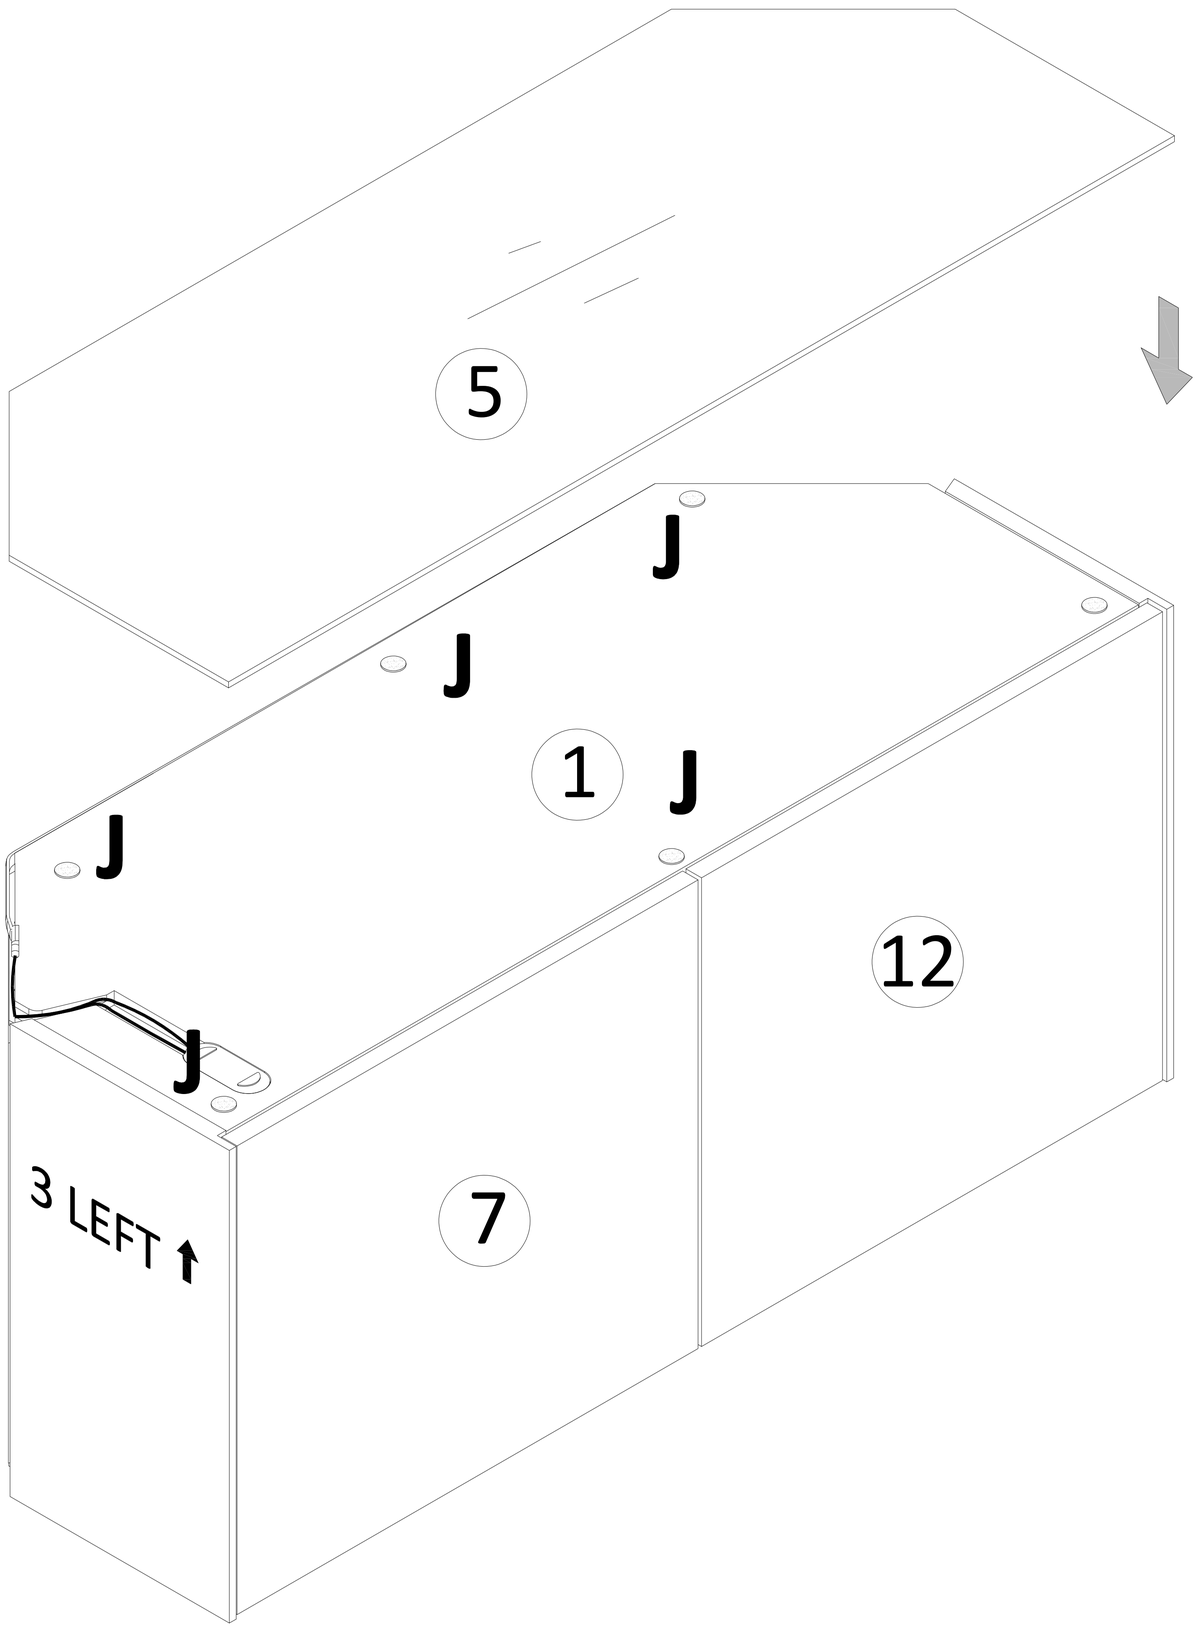


23

NOTE : See separate instructions provided on setting up the app / LED strip and Alexa voice control.

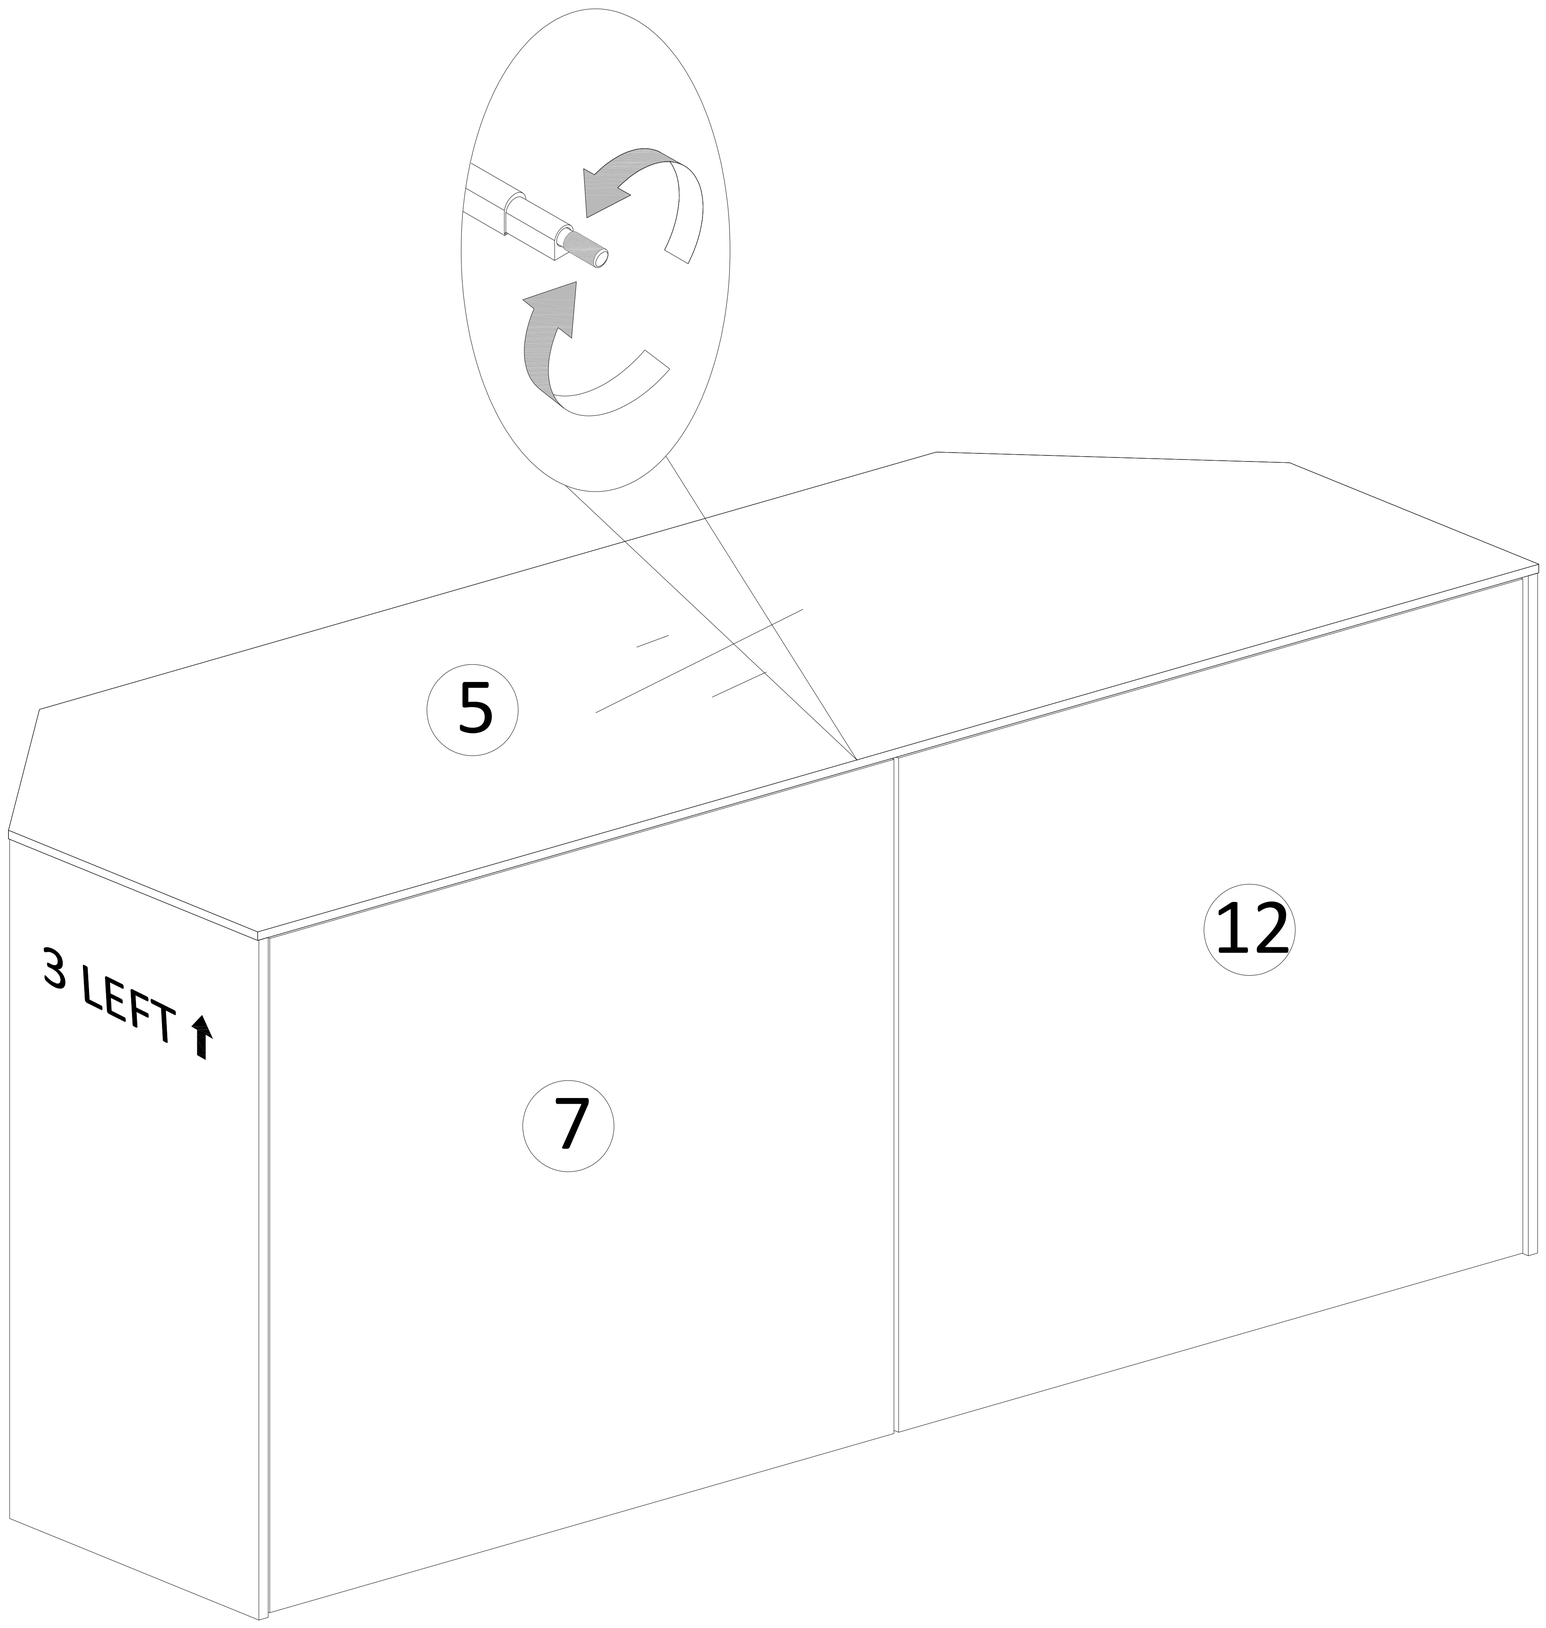


24

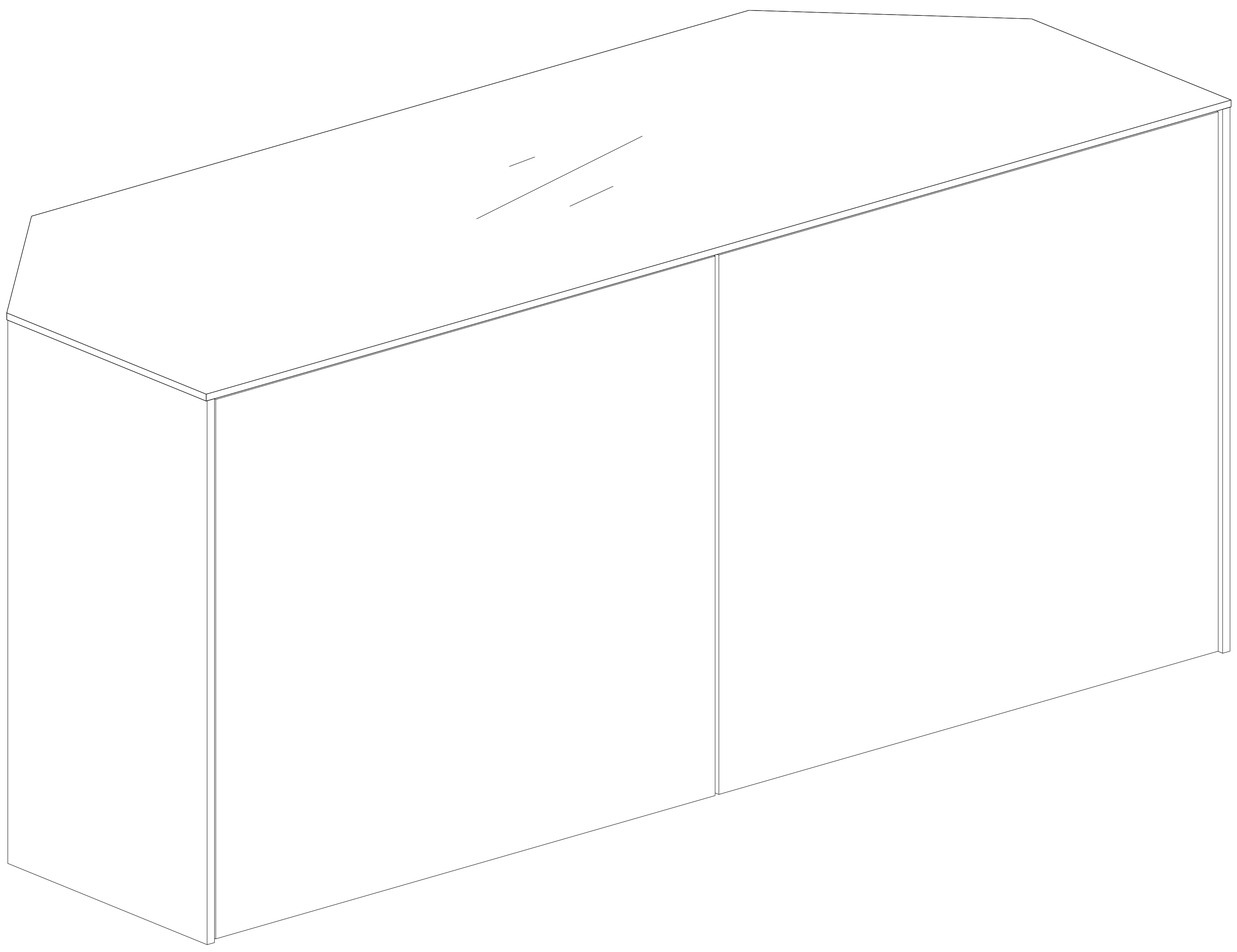


25

NOTE: If the push to open mechanism is not working properly,
Simply turn the end of the barrel to adjust.



26



CLEANING ADVICE:
To avoid scratching the painted and glass surfaces,
clean only with a non abrasive cleaner.

NOTES ON SETTING UP WIFI

The LEDS lights only work on **2.4 GHz**, they will not work on 5.0 GHz

Most homes are 2.4 GHz or operate a dual function. If for any reason the LED lights are not connecting to the app or Alexa, please check the router setting. Most routers will operate both 2.4 and 5.00 GHz so there should be no problem.

In commercial premises, there maybe software to block access connection to unknown apps or services. If this happens, please check with IT Department.

The system will work from a mobile WiFi hotspot from one phone to another. We recommend this approach if there are access issues.
